ABOUT US

Maya General Contracting EST. LLC was founded in 2004 in Abu Dhabi. However, with our sister-concern, Al Mirag Contracting Co., since 1998 in Abu Dhabi and Al Ain We began as a contractor, building apartments, Villas and Schools. Today we have grown to become one of the leading general contractors in the United Arab Emirates, responsible for some of the most challenging projects in the country. We have a reputation for getting the project done on-time and on-budget and we are proud to report that more than half of our work comes from repeat clients

We are professional construction organization dedicated to serving our clients with honesty and integrity. We focus on effective collaboration and successful solutions.

We welcome projects of all sizes and are committed to delivering the highest level of value and service to every customer. In over 14 years of operations, we have completed positively all projects. We have diversified by developing construction expertise in a wide range of areas. We are active in both government work and in the private sector, and adjust our methods and contracts to meet the specific needs of each customer and project. Through the years, we've also built a reputation for skill, quality and dedication. Our ability to understand and work closely with architects and engineers on projects, enables the project to flow smoothly and rapidly, thus meeting construction schedules and controlling construction.

As we respond to the ever-changing demands of the construction industry, Maya Contracting looks forward to continued growth and success for many years ahead.

MISSION

OUR MISSION DEFINES WHAT WE SET OUT TO DO EACH DAY:

- To build best quality infrastructures, produce great talents and care for environment
- To safely deliver any project, in any environment on time and within budget to benefit out customers, employees and the communities we serve.
- To develop a highly profitable and sustainable construction company.
- To provide complete customer satisfaction and achieve leadership in construction field across the gulf region

VISION

Our vision is to be a leading construction company in UAE and to become a significant global player by the turn of the decade., Our aim, to be a regional player, will lead to the establishment of operations in the key areas of gulf region., We shall seek joint ventures with partners who are major players in their country or region.

We aspire to enrich our people - our driving force, to become highly competent professionals and adopting latest technology in construction field., By the turn of this decade, we shall be amongst the most admired companies in the UAE.

CORE VALUES

- » Safety First
- » Reliable
- » Committed
- » Integrity
- » Environment Friendly

QUALITY MANAGEMENT

It is the policy of Maya Contracting to provide a complete customer satisfaction through:

- » Providing its customers with the highest quality of construction work by delivering it on time.
- » Ensuring that its work and services meet the customer's requirements
- » Become a nationally and internationally recognized, respected and quality oriented company.
- » Growing in terms of expertise, personnel and equipment whilst maintaining flexibility in construction works.
- » Complying with Local and Federal regulations as applicable.
- » Striving for continuous improvement based on customer feedback and stakeholder's requirements.

We are committed to providing a safe environment and work place for all our employees, subcontractors, and clients. To ensure the successful implementation of the HSE system for every project and it's continued monitoring and improvement the following procedures are followed:

- Developing and maintaining a framework for setting, reviewing and achieving measurable HSE objectives and targets.
- Complying with the requirements of local legislations, codes of practice and exceeding industry standards.
- Providing a system to identify hazards, assess and manage risks and analyze the impacts of every activity in order to prevent personal injury, occupational illness, property damage, and environmental impacts.
- Ensuring that the impact of all our activities on the environment are minimized.
- Having established contingency plans adequate to address all of the identified emergency scenarios
