

Freight Forwarder

Freight forwarding is the process of arranging the transportation of goods and products from one place to another. It involves the coordination of various activities, including transportation, customs clearance, and documentation, to ensure that goods are delivered to their final destination in a timely and efficient manner.

We act as intermediary between shippers and carriers, we are negotiating the best rates and terms for our customers and arranging for the transportation of goods by sea.

Bemax Logistics can be a cost-effective solution for companies that need to transport goods, as Bemax Logistics have the expertise and relationships with carriers to negotiate the best rates and terms. It also allows companies to focus on their core business activities, as the logistics of transporting goods are handled by Bemax Logistics.

Overall, Bemax Logistics is a key component of logistics and supply chain management, and Bemax Logistics play a critical role in ensuring that goods are transported efficiently and effectively from one place to another.

The services offered by Bemax Logistics can vary depending on the company, but typically include:

Transportation arrangement

Coordinating the transportation of goods by sea based on the specific needs of the shipper.

Documentation preparation

Preparing and processing the necessary documents, including bills of lading, customs declarations, and insurance certificates.

Customs clearance

Assisting with the customs clearance process and ensuring that goods are cleared through customs in a timely and efficient manner.

Insurance

Arranging for insurance coverage to protect the goods in transit.

Tracking and monitoring

Tracking the shipment and monitoring its progress, and keeping the shipper informed of any issues or delays.
