

# 2023 Lake Level Survey

**Please Respond! TPIA Needs your input on management of the water levels on Thomas Pond.**

The Thomas Pond

Improvement Association (TPIA) needs input from as many owners as possible to guide our water level management practices.

The survey will close on **September 5, 2023.**

4 ☐

5 ☐

Love

### Lake Levels In Season

During the "Season", roughly April through October, the dam is currently managed to keep lake levels

between a **high of 17 inches** and a **low of 20 inches**

below the top of the dam. (We'll ask separately about Off Season levels).

4. Tell us what you think about the **In Season high** lake level \*

Mark only one oval.

Much too low

---

**Off Season Lake Levels**

Off season the dam is currently managed to keep lake levels **26-28 inches** below the top of the Dam. Last Off Season, as directed at the annual meeting, all the control boards in the dam were removed and the lake level dropped to 42.5 inches below the top of the dam. Please answer the following questions in regards to **Off Season** lake levels.

7. In general, ignoring the last Off Season draw down, tell us what you think about the **Off Season high** lake level

*Mark only one oval.*

Much too Low

1

☐

2

☐

3

☐

4

☐

5

☐

Much too High

8. Tell us how you felt about the lake levels last Off Season when the lake dropped to about 42.5 inches below the top of the dam.

Mark only one oval.

Hated it. Much too low
