2025 WMF's School and Event Scheduling Form

What can you schedule for your classroom or event?

Classroom Lessons / Presentations: The Wenas Mammoth Foundation is offering scientific and educational lessons for local schools (classrooms or assemblies), and community events. Every lesson will enhance STEM, CTE, and the Next Generation Science Standards. Lessons will be formatted to fit the grade level or special interest. Lessons include a lesson plan, slide presentation and presentation question, video(s) and video question(s), quiz, and a group discussion question. Teachers can request the lessons by class topic or by an individual lesson topic. Each lesson fee is \$35.00 per hour. Curriculum is also available online for teachers to utilize within their own time requirements. Go to our Virtual Education Program to access these scheduling forms and on-line resources.

Mobile Educational Exhibit: The mobile exhibit is basically a traveling museum that is full of information, fossils, casts, petrified wood, and more. Displays support the lessons that are taught in the classroom. Displays can be adjusted to fit the teacher or event needs. The mobile exhibit can be added when scheduling classroom lessons or can be scheduled independently. Fees are shown on the pricelist.

Hands-on Activities: Hands-on activities can also be added when scheduling either the classroom lessons or the mobile exhibit. However, they cannot be scheduled independently. We have a selection of activities to pick from that support the curriculum. Fees are \$35.00 per activity/per hour.

Name of School or Event: _____

Name of Contact: _____

Date for Event: _____ **Time:** _____

Grades: _____ **Class or Event Subject:** _____

of Participants: _____ **# of Classes or Groups:** _____

Street Address: _____

Questions or Help? If you have any questions, need help, have special requests, or confirm that the dates are available, please call us at (509) 945-4921. When we complete the scheduling form, I will send your school or organization an invoice. Please continue and complete page 2 of this form.

WMF's School and Event Mobile Education Scheduling Form

You may choose one or a combination of any of the classes or lessons below. Each lesson is approximately 60-minutes. You may also choose to schedule the Mobile Educational Exhibit or add on Hands-on Activities. Please note: Lesson times do not include time for lesson quizzes, hands-on activities or touring the mobile exhibit. If you need help, please give me a call at (509) 945-4921.
