

Rapid loading and unloading

Wheels and press-on tyres for lifting vehicles

VULKOLLAN® load wheels

VULKOLLAN®/PEVOPUR®
press-on tyres

Heavy-duty wheels with
pneumatic and SE tyres

Ball units

In the case of large cargo volumes and tight schedules, aeroplanes need to be loaded and unloaded quickly and reliably. Our products ensure this is possible thanks to their high load capacity and compact design. Even in extreme weather or in tropical conditions, the exceptional rolling properties are unaffected.

Automatic, reliable processing

Wheels for baggage and cargo handling

PEVOPUR® wheels

PEVOLON®, PEVOTHAN®,
PEVOTHAN® HD guiding wheels

VULKOLLAN® chain wheel

Ball units

Baggage and cargo need to be brought to and from aircraft continuously and without any issues. This is ensured through the use of our wheel materials with properties tailored to specific tasks. They are highly durable, offer excellent impact resilience and also work reliably at high speeds.
