## OASIS DATA

### Oil Analysis Severity Report

Lab Number: 816801

Name: 2B

Date: 10/18/2022

Severity: Normal

**Recommended Action:**

Continue sampling to track/trend data.

**Data Interpretation:**

Based on the results of the analyses performed on this sample the unit and lube appear satisfactory for continued usage.

Lab Number: 816802

Name: 5B

Date: 10/18/2022

Severity: Severe

**Recommended Action:**

Check for possible sources of water contamination.

**Data Interpretation:**

The sample from this reservoir contained significant water contamination.

Lab Number: 816803

Name: 6B

Date: 10/18/2022

Severity: Normal

**Recommended Action:**

Continue sampling to track/trend data.

**Data Interpretation:**

Based on the results of the analyses performed on this sample the unit and lube appear satisfactory for continued usage.

Lab Number: 816804

Name: 9B

Date: 10/18/2022

Severity: Normal

**Recommended Action:**

Continue sampling to track/trend data.

**Data Interpretation:**

Based on the results of the analyses performed on this sample the unit and lube appear satisfactory for continued usage.

## Oil Analysis Data Sheet Report

Sample ID: 2B

Description: BARYM INC

Manufacturer:

Oil Type:

Grade:

Lab Number		816801	
Sample Date	Units	10/18/22	
ADDITIONAL TESTS			
Karl Fischer H2O	ppm	20.8	

### Recommended Action:

Continue sampling to track/trend data.

### Data Interpretation:

Based on the results of the analyses performed on this sample the unit and lube appear satisfactory for continued usage.
