WELCOME

Welcome to our 2021 Production Sale. I was reading an article about cattle cycles recently. In 1867 the cattle numbers in the U.S. were 28.6 million. The numbers peaked in 1975 at 132 million. There have been 12 cyclical peaks. The most recent low was in 2014 with 88 million head and the most recent high was in 2019 with 94.8 million. The numbers have been dropping since that time with a larger drop predicted this year which means higher calf and yearling prices for 2022. Unfortunately drought and low prices influence the inventory which then makes the market higher in the coming years. The idea is that packers will bid more for the smaller inventory and allow us a bigger share of the pie.

Again this year we have bought some of our customers calves and have been at several deliveries. Its great to see the growth and quality of these calves. Several groups of bred heifers have come from these customers. This is probably the best set of bred heifers we have developed.

It was a successful year with grandkids. Casey had Lumi on New Years Eve Day and Courtney had Tatum on April 21st. Both girls are healthy and doing well.

Again, we appreciate all our customers.

THANK YOU for the support
and confidence in our program.
