## **SafeFloor Michigan Donates SafeFloor to the Department of Natural Resources (DNR) in Alcona County**

SafeFloor Michigan is a new company in the Bay City area. It is owned and operated by Tri-city native Matt LeBrun. SafeFloor Michigan is thrilled to be a part of the community they live in. They love boats, fishing and installing safe, anti-slip resistant flooring for the DNR in Michigan. Working with them was a pleasure and a perfect fit.

Recently, Matt donated his services and product, to ensure the boat from the DNR is safe for the officers and community it serves. "It is a pleasure to work with the DNR to provide SafeFloor on the boats that do so much to keep everyone safe on the water here in Michigan," says Matt LeBrun.

SafeFloor™ is a recycled granulated rubber flooring that is chemically bonded to the boat deck, and other surfaces to create an easy to clean, anti-slip and durable floor covering. SafeFloor has been in business for over 20 years and it is the only marine flooring that offers a lifetime warranty on its patented flooring product. SafeFloor enhances the DNR boat and gives it a great new look. SafeFloor is a high performance, marine, nonskid flooring built to last for years to come! This nonskid floor is perfect for the officers who are often dressed in uniform and other gear. It will prevent slips, falls and injuries, lessen fatigue, and will dampen the hull noise. It is super easy to clean, is pet friendly and has unrivaled durability.

SafeFloor Michigan thanks the DNR for their support. We appreciate the opportunity to provide SafeFloor for their boat and look forward to continuing to work with them in the future.
