

TWIST LOCK & QUARTER TURN LENSES

Twist Lock lenses (New Style)

These lenses fit on the gauge cases that have the tab right on the edge as seen in the photo below. Unlike the old style, these have no bevel in the center.

Quarter Turn lenses (Old Style)

These lenses fit on the gauge cases that have the tab slightly below the edge as seen in the photo below. These lenses have a bevel in the center, shown in the photo to the right.
