Variance Application

May be approved if the evidence shows that the strict application of the terms of the ordinance would unreasonably restrict the utilization of the property or that the granting of the variance would alleviate a hardship due to a physical condition relating to the property or improvements thereon at the time of the effective date of the ordinance, and:

- 806.02-1 the property interest for which the variance is being requested was acquired in good faith and any hardship was not created by the applicant for the variance;
- 806.02-2 the granting of the variance will not be of substantial detriment to adjacent property and nearby properties in the proximity of that geographical area;
- 806.02-3 the condition or situation of the property is not of so general or recurring a nature as to make reasonably practicable the formulation of a general regulation to be adopted as an amendment to the ordinance;
- 806.02-4 the granting of the variance does not result in a use that is not otherwise permitted on such property or a change in the zoning classification of the property.
- 806.02-5 In authorizing a variance, the board may impose such conditions regarding the location, character and other features of the proposed structure or use.
