## Why Our American Rings?

Our superior processes deliver greater efficiency. And we provide the very best service in the world. As quality and pricing can often be very similar across the industry, customers choose us because of a proven track record of value-oriented service.

Our philosophy extends from how we treat employees to how we manage the entire customer experience. A culture of integrity and respect drives business and improves the bottom line. Our service approach goes beyond parts and specifications; we are about delivering solutions, even ones our customers may not have known were possible.

## Engineering

Not all parts are created equal. Let our expert design and engineering team help you find the best part for your application. Whether it is a standard or a custom design, our engineers offer TRUE MANUFACTURING SOLUTIONS.

## Quality

Our American Rings meet the demand for quality through rigorous training, statistical analysis, empowered teams, new technologies and continuous process improvement. Our Quality System is certified to meet the requirements of TS16949, ISO 9001 and AS9120. Sustaining high quality allows us to give customers what they demand: low costs without sacrificing the highest quality in the industry.

Through continuous improvement, we will achieve zero mistakes to satisfy our customers.
