The NADA used by IMWA is HUNADO, the Hungarian NADA situated in Budapest. The IMWA have agreed and signed two contracts with HUNADO.

1. At IMWA championships the HUNADO DCO's (Doping Control Officers) will be responsible for the selection of athletes to be tested and do the testing.
2. The HUNADO use the WADA approved laboratory in Austria to test all the samples. The HUNADO Legal Department has produced the IMWA Anti-Doping Policy which is WADA compliant. They will process and manage all the test results to check for any AAF's (Adverse Analytical Findings), using all the related documentation, and decide if a doping offence has been committed. They will also process all and any doping offences.

Please see the IMWA website www.imwla.com for the current IMWLA Anti-Doping Policy.

15.1.3 Any person found guilty of a doping offence will be notified by the HUNADO, via a communication stating the athlete's rights and any penalty applied. Penalties imposed are those applicable under WADA rules.

15.1.4 The IMWA does not deal with TUE requests nor does it issue TUE's. Athletes must go to their own NADA to obtain a TUE and if this fails the IMWA is able to put athletes in contact with the HUNADO who do charge a fee.

15.1.6 Before each championship, and immediately after the closing date for entries, the IMWA will know the total number of entries from the Registration System to enable a budget to be prepared to meet the cost of Anti-Doping. The number of tests to be carried out at any championship will depend upon the budget.

15.1.7 All persons who register using the Registration System must read all the anti-doping information and in effect agree to be tested if selected. An athlete can be selected at any time and on any day during the days of a championship.

16 COMPETITION ENTRY - ONLINE REGISTRATION and PAYMENTS SYSTEM

16.1 All entries will be by online registration only.

Note: The online system will close on the date listed as the closing date on the Registration System home page and no late entries will be possible.

16.3 Athletes must pay the entry fee to their National Masters body before being issued with the access code.

16.4 The online registration allows input of all an athlete’s individual details to enable the Competitor Start Lists and Competition Schedule to be produced.

16.5 The system has pages that will display information relating to the current Championship.

2.2 Age Groups

MEN

The IMWA organise lifting in eleven (11) age groups for men within each body weight category. Each age group spans 5 years which statistically is the longest age span suitable to enable a true competition between athletes of differing ages. The men's age groups are:

M35	age 35-39	M40	age 40-44
M45	age 45-49	M50	age 50-54
M55	age 55-59	M60	age 60-64
M65	age 65-69	M70	age 70-74
M75	age 75-79	M80	age 80-84
M85	age 85 and above		

WOMEN

The IMWA organise lifting in eleven (11) age groups for women within each body weight category. The women's age groups are

W35	age 35-39	W40	age 40-44
W45	age 45-49	W50	age 50-54
W55	age 55-59	W60	age 60-64
W65	age 65-69	W70	age 70-74
W75	age 75-79	W80	age 80-84
W85	age 85 and above		

2.3 A weightlifter can compete in Masters' weightlifting events on the 1st January in the year he or she becomes 35 years of age regardless of the fact that the birth date may be as late as the 31st December. The same principle applies when an athlete reaches the next age group.

2.4 For men and women in age groups 70 and above, the minimum weight on the bar shall be 15 kg (10-kg bar and two full-sized 2.5-kg discs, with clips instead of collars). If the desired weight is 20 kg, a 15-kg bar may be used.

3. THE 80% RULE

3.1 **80% Rule** – At the IMWA World Championships, the total weight of the starting attempts declared and actually taken in the Snatch and the Clean & Jerk must equal or exceed 80% of the weight of the verified Entry Total. The jury will exclude the athlete from the competition if this rule is not adhered to. The rule is known as the 80% Rule and determines the “minimum start total”.

Note: All fractions of 1 kilogram for an athlete's minimum start total should be rounded **up** to the next highest kilogram. Example: If the minimum start total (including changes; see 3.4 below) is calculated to be 203.1 kg, the minimum start total shall be set at 204 kg.

Example: An athlete enters a competition with a verified Entry Total of 250 kg. As 80% of 250 kg is 200 kg, the total weight of the combined first attempts in the Snatch & Clean & Jerk must equal or

exceed 200 kg, e.g., 90 kg and 110 kg or 87 kg and 113 kg or any other combination. The **minimum start total** in this example is 200 kg.

Note: At Continental Championships and other local and regional Masters championships the minimum start total can instead be set at 80% of the official Qualifying Total for the athlete's age group/bodyweight category

3.2 The athlete may submit an Entry Total that is lower than the total actually achieved at their qualifying competition but it must be equal to or greater than the official Qualifying Total for their age and bodyweight category.

3.3 No changes can be made to the Entry Total after the deadline date for entries has passed except for 3.4 below.

3.4 Changes to the Entry Totals and Minimum Start Totals

3.4.1 If the athlete remains in the bodyweight category entered the **Entry Total** remains unchanged and no changes are allowed.

3.4.2 If the athlete moves down to a lower bodyweight category at the Verification Meeting or earlier, then the **Entry Total** is *decreased by* an amount equal to the difference in qualifying totals between the original category entered and the declared new category. The **Minimum Start Total** will be 80% of the new Entry Total.

Example: The athlete enters M65/102kg category with an entry of 200 kg total and minimum start total of **160 kg** i.e., 80% of the entry total. At the Verification Meeting the athlete moves down to M65/96kg. The qualifying total for M65/96kg is 4 kg lower than for M65/102kg and therefore the Entry Total is now 196kg, therefore the minimum start total is *reduced* to **157 kg** (80% of 196kg =156.8kg rounded up to 157kg).

3.4.3 If the athlete moves up to a higher bodyweight category at the Verification Meeting or earlier then the **Entry Total** is *increased by* an amount equal to the difference in qualifying totals between the original category entered and the declared new category. The **Minimum Start Total** will be 80% of the new Entry Total.

Example: The athlete enters W35/59kg category with an entry total of 200 kg and minimum start total of **160 kg**, i.e., 80% of the entry total. At the Verification Meeting the athlete moves up to W35/64kg category. The qualifying total for W35/64kg is 5 kg higher than for W35/59kg therefore the Entry Total is now 205kg, therefore the minimum start total is *increased* to **164 kg** (80% of 205kg =164kg).

4. MASTERS BODYWEIGHT CHANGE RULE

4.1 At the Verification Meeting before the start of IMWA World or Continental Masters Championships, each National Federation confirms the final entry list of their athletes including name of the athlete, age group, and bodyweight category.

4.2 At the Verification Meeting athletes may move up to a higher body weight category or down to a lower body weight category.

Note – Rules 3.1 and 3.2 ensure that an athlete can achieve the qualifying standard. Changes of body weight may be communicated, in advance of the Verification Meeting, to the Secretariat by e-mail or other means.

4.3 Athletes cannot move to a higher or lower body weight category at the time of the weigh-in

4.4 After information is verified at the Verification Meeting the entries are considered final. There cannot be any modification of the names or bodyweight categories of the athletes.

4.5 It is possible that the Final Verification meeting will be conducted online up to 5 days before the start of championship. In this case each National Masters Chair will be notified by the email sent regarding the official opening of the registration.

4.6 Weigh-in

- Athletes may be weighed in either completely undressed or in undergarments (articles of the athlete outfit: costume, unitard, shorts and T-shirt are not considered as undergarments). Athletes must not wear shoes or socks or any other footwear during weigh-in.
- Athletes with prosthetic limb(s) must be weighed with the prosthetic limb(s). The weight of the athlete, while wearing the prosthesis, is considered to be the athlete's bodyweight.
- Athletes are entitled to wear jewelry, hair adornments and religious head gear during weigh-in. Athletes must not wear watches during weigh-in.

5 MASTERS AGE AND BODYWEIGHT FORMULAS (Men and Women)

5.1 A system of points is used to decide the best lifters in age groups and the overall championship best lifters for men and women referred to as Grand Master Men and Grand Master Women. Points are calculated using bodyweight coefficients and age coefficients.

5.2 The **Sinclair-Meltzer-Faber Formula (SMF)** is used at IMWA World and Continental championships to compute the best lifter in each age group and best overall lifter in the championship for men. The formula uses the 2020 Sinclair Body Weight Coefficients and the Meltzer-Faber Age Coefficients which remain static unless and until changes are approved by the IMWA Congress and/or Executive Board.

Only first place winners are eligible for an Age Group Best Lifter Award, and the Overall Best Lifter Men in the championship is selected from the men's Age Group winners by virtue of having the highest number of SMF points.

5.3 The **Sinclair-Huebner-Meltzer-Faber Formula (SHMF)** is used at IMWA World and Continental Championships to compute the best lifter in each age group and best overall lifter in the championship for women. The formula uses the 2020 Sinclair Body Weight Coefficients and the Huebner, Meltzer, Faber Age Coefficients which remain static unless and until changes are approved by the IMWA Congress and/or Executive Board.

Only first place winners are eligible for an Age Group Best Lifter Award and the Overall Best Lifter Women in the championship is selected from the women's Age Group winners by virtue of having the highest number of SHMF points

6 IMWA NATIONAL TEAM COMPETITION

6.1 At IMWA World and Continental championships each country may enter a team into the Men's National Team Competition and/or the Women's National Team Competition. The men's team consists of a maximum of ten (10) athletes and women's team ten (10) athletes, plus 3 reserves in each case. A team may have less than the stipulated number.

- This competition is for team points only and team points are applied according to the IWF Rules, for the total only (*not* including points separately for Snatch and Clean & Jerk).
- A team may include only a single individual, or a maximum of ten, or any number from one to ten.
- Should a team member be unable to participate, or be excluded due to two other team members being in the same age group and body weight category, the first reserve will take the place of the absent team member. Should two (2) team members be unable to participate, the first two reserves will take the place of the absent team members. Should three (3) team

members be unable to participate, all three reserves will take the place of the absent team members.

- A reserve can only be used as a substitute in a team if a named team member is withdrawn from the competition prior to the first attempt on the snatch, except as noted above.

- 6.2** Team selection is from the version of the Start List published before the beginning of the final Verification meeting at which time a new competition Start List will be produced.
- In the team competition (men's and women's teams) if there is only one lifter listed on the final competition results in an age group/body weight category and that lifter is selected for a team, the maximum points that can be earned is 23 (equivalent to 3rd place). If there are two (2) people listed on the final competition results in the age group/body weight category, the winner, if a team member, would earn 25 points and the second, if a team member, would earn 23 points (equivalent to 2nd and 3rd places).
 - Team entries should be submitted and paid at the Verification Meeting and will not be accepted after the start of the competition.
- 6.3** Team points for each athlete are calculated on the athlete's final position in the competition within the athlete's age group and body weight category. Points are based on the IWF team points system. SMF or SHMF points for each athlete are computed based on their total weight lifted.
- 6.4** The points of each team member are added together to give the total points for the team. The team with highest number of total points is the winning team.
- If two (2) or more teams have equal totals of points, the winning team will be selected on basis of medals won, i.e., most gold, silver, bronze, as follows: The team with the most gold medals is placed higher; if number of gold medals is equal, the team with the most silver medals is placed higher; if number of silver medals is also equal, then the team with the most bronze medals is placed higher.
 - If two (2) or more teams have identical medal distributions, then the SMF or SHMF points earned by each team member are added together to give a total SMF or SHMF points for the team. The winning team is then selected on the highest team total of SMF or SHMF points.

7 MEDALS

- 7.1** Medals are awarded to the first three places in each body weight and age category for totals only.
- 7.2** In the event of a tie the lifter who achieved the total first is the winner, regardless of age or body weight.
- 7.3** Regardless of an athlete achieving a finish in the first three, failure to achieve the qualifying standard will result in the athlete not being awarded a medal.

8 BEST LIFTER AWARDS

- 8.1** Best lifter awards will be given for each age category, men and women.
- 8.2** All best lifter awards are based on the highest number of SMF or SHMF Points amongst the gold medalists within each age group. Athletes who are not first in their age and body weight category are ineligible for the best lifter and grand master awards.
- 8.3** "Grand Master" Awards for men and women may be awarded to the best overall man and woman having achieved the highest overall SMF or SHMF Points in a championship, chosen from among the Age Group winners.

9 INTERNATIONAL MASTERS CHAMPIONSHIPS

Arrangements will be made for additional fees to be paid by each national Masters Chairman to cover all their competing athletes.

9.4 CONTINENTAL MASTERS CHAMPIONSHIPS

At Continental Masters Championships athletes can set World Masters records and Continental Masters records relative to the country and continent in which an athlete holds a passport or complies with rules on residency. Doping controls must be applied to enable ratification of records.

- Doping controls must be applied to enable ratification of IMWA World Masters records.
- Doping Controls will only be processed by a WADA approved laboratory.
- Any International Masters Championship event other than those listed in 9.2, 9.3, and 9.4 above must be sanctioned by the IMWA.
- To enable the IMWA to sanction international Masters weightlifting events, other than Continental Championships, the Organising Committee must invite members from the IMWA Executive Board to attend, oversee, and agree that the event complies with all IMWA rules.
- All sanctioned non-IMWA events must provide (sent by email) a list of selected athletes for doping control and inform the IMWA Anti-Doping Panel immediately of any positive result.
- The result management of doping results at non-IMWA events shall be conducted by the respective NADA who carried out the doping control.

10. ENTRY FROM OUTSIDE THEIR COUNTRY OF NATIONALITY

- 10.1** Athletes who live and work in a country for which they do not hold a passport must still be allowed the possibility to compete in Masters International Championships.
Any such athlete who is denied the right to compete is allowed to appeal to the IMWA Secretariat.
- 10.2** If the National Masters Chairman of any country has doubts about the international qualification of an athlete from another country and now working and living in their country must do their utmost to ensure this rule is observed. If they do have any doubts, they must contact the IMWA Secretariat for a solution.

11. SINGLET'S RULE

- 11.1** Weightlifting costumes for IMWA are the same as those described in the IWF TCRR except as follows:
The design on the upper thigh must be cut in a horizontal fashion such that the gluteal fold always remains covered. Ideally, the weightlifting costume worn by a Masters athlete should be similar to that worn by senior athletes of their home country at IWF international events. Bikini cut designs are unacceptable on IMWA competition platforms for both genders.

12. VIDEO PLAYBACK TECHNOLOGY AND CHALLENGE CARDS

- 12.1** The IMWA does not employ Video Playback Technology (VPT) or Challenge Cards to review Referees' or Jury's decisions. Neither Athletes or Teams are permitted to challenge the decisions of the Referees or Jury; those decisions are final.
