SEMtech!

What is SEMtech?

SEMtech *(Student Engagement & Mentoring in Technology),* is an organization deeply invested in bridging the technology education gap and fostering diversity in STEM (Science, Technology, Engineering, and Mathematics) fields. The primary focus of SEMtech is to provide guidance and resources to enhance learning and participation in these areas, particularly among underrepresented groups. SEMtech's strategies and activities are aligned with the professional expertise of Thomas Russell, Director and Founder of SEMtech.
