Duende Project Management
Project Management Professional® (PMP®) Certification Prep Boot Camp
Course Description

Objective

Market research indicates that employers want to hire project management practitioners who have real experience leading and directing projects. To better meet this need, the PMP® application requires the documentation of experience leading and directing the various tasks required for effective project management in addition to passing the PMP® exam. PMI® is placing increased emphasis on situational questions in the testing process for the PMP® Certification to better evaluate the applicant's abilities to apply project management knowledge. This has made the PMP® certification test harder than it has been in the past, and increases the value of taking a preparation course prior to taking the test. This course, along with the review of the materials and repeated practice testing, will more than adequately prepare students to take the PMP® Certification Exam.

Who Should Attend?

Project Managers, Project Leaders, Team Leaders, and any project practitioners who would like to adequately prepare for the PMP® certification exam. Participants will review the content conforming to the most recent ECO (Exam Content Outline) and PMBOK® Guide processes and will be presented with multiple practice tests, study materials, and a final practice exam in this very thorough and highly successful course.

Why Choose Us?

- Our course meets PMI's 35-hour project management contact hours requirement for the PMP® exam.
- We provide 100% money back guarantee ([click here for requirements](#)).
- We provide instructor led training (live virtual).
- Instructors are PMP® and ACP® certified with extensive project management experience.
- Our course addresses all aspects of PMI's PMP® exam content outline (ECO).
- We provide access to digital materials and exam simulation for one year.
- Our materials include a PMP® prep boot camp manual, exam simulation, copies of class slides, key project management templates, and access to class videos for 90 days.
- We provide a free PMI® PMP® application review.
- If you do not pass on the first attempt within 60 days of the class, you will be provided a coaching session and the opportunity to repeat the class free of charge.
- We offer a premium option which includes two additional ½ day ("deep dive") sessions and a 90 day access to a boot camp study hall.

When is training offered?

We offer Monday through Thursday classes monthly. We also offer a four Saturday training typically once per quarter. Click here for the current schedule.

100% Money Back Guarantee

We guarantee that you will pass the PMP® exam or receive 100% refund of your tuition fee. The following are the requirements:

- You must attend the complete course.
- You must complete the assigned practice exams and receive your exam readiness certificate before your first attempt at the PMP® exam.
- If you do not pass the PMP® within three attempts, you will be refunded 100% of your class tuition. The three attempts must be completed within 120 calendar days of the class completion.
