

**PUBLIC NOTICE-CUSTOMERS OF
LINN PWS
FAILURE TO MEET MICROBIOLOGICAL MONITORING
REQUIREMENTS FOR DRINKING WATER**

Este informe contiene información muy importante sobre su agua potable. Tradúzcalo o hable con alguien que lo entienda bien.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During **October 2023**, we did not complete all monitoring or testing for total coliform bacteria, and therefore, cannot be sure of the quality of our drinking water during that time. This is a violation of Missouri Public Drinking Water Regulations.

Although this incident was not an emergency, as our customers, you have a right to know what happened and what we did to correct the situation. Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or by distributing copies by hand or mail.

Provide explanation of cause of monitoring failure:

Our operator during this time was out a lot and the other maintenance guys were not aware of the sampling schedule.

For more information, please contact water system staff indicated below:

Carrie Grellner at 513-897-2236 or Carrie@cityoflinn.com.
(name of water system contact) (phone number) (mailing address)

Additionally you may contact the department's Central Field Operations at 573-522-3322 or Public Drinking Water Branch at 573-526-6925.
