

Hawg Heaven POA Meeting  
March 12, 2022  
9 AM

Meeting was called to order by President Ray Bailey.

Larry from the volunteer fire dept 356 was here selling tickets to the fish fry.

Community Input: Don Phillips reported that Sam was back in the sub-division. Wayne Kurtz asked what if any resources were available to take care of the vacant/dumpy houses in the neighborhood. The Board explained that it is a slow process. We have a newly formed Deed Restriction committee formed who are working with EPA. Mr. Kurtz volunteered to help.

Secretary Report read and approved.

Treasurer Report read and approved.

Mr Bailey reported that 8 roads plus the POA driveway have been repaired. It cost 87000 to get that work done. Hopefully in the next year or 2 we can get some other roads fixed. The roads are being done in priority order. Nina Trail is the worst rd now.

Playground committee reported that the bench and table should be here in the next week or so. They still need to get a tetherball and a doubleback swing. They still need to get water hooked up and the basketball court needs a power wash. These are all weather permitting. The committee plans a garage sale scheduled for the first weekend in May. There has been expense and time put into this play ground to come about. If expensive equipment is destroyed by people misusing it, we have cameras it will be replaced by the offending people with expensive equipment.

The Deed Restriction/BY-Laws have been amended. The Deed Restrictions will be mailed out to all Property owners for vote.
