# CHASING DORY

Everyday Underwater Exploration

## Take It Anywhere

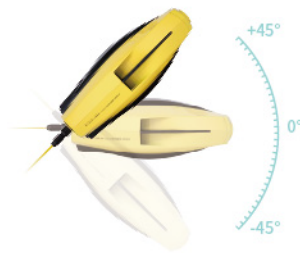

DORY is an incredibly small and portable underwater drone that only weighs 2.4 lbs. Which is 56% lighter than the Gladius Mini. DORY is good to go anywhere you go. DORY' S portable enough to put into a backpack and head out on any adventure worldwide.

## Serious Technology with Value

### ±45° Tilt-Lock Mode

Point DORY down or up to capture amazing angles of underwater life. This feature guarantees the best angles you can get underwater.

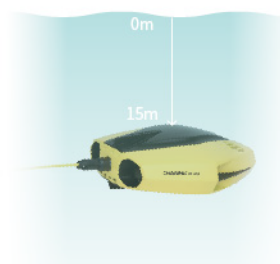

### 1080P with f/1.6 Aperture

Dory' s HD camera pushes the boundaries of what' s possible with the widest aperture settings for low light situations.

### Dive Up To 49 ft

Stay just below the surface or explore the depths it' s your choice with DORY.

### Up To 1 Hr. Dive Times

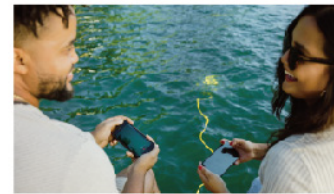

DORY comes equipped with a 4800mAh battery. Only DORY needs to be charged. Charging times average around 2.5-3hrs.

## DORY' S Customized Features

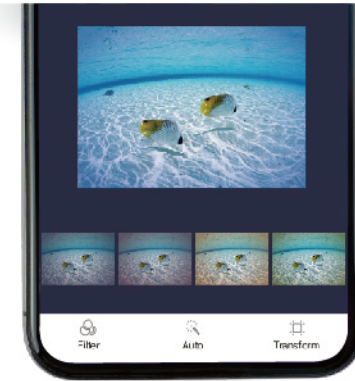

### Intuitive Controls

DORY' S simple APP makes your phone the controller, equipped with virtual joysticks for effortless controlling DORY.

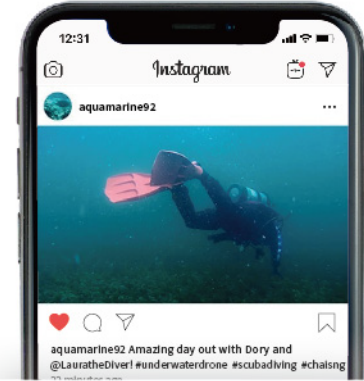

### Custom Visual Filters

we offer 19 image filters to enhance any photo taken with DORY.

### Share Straight To Social Media

Real time videos and photos allow you to share your underwater adventures and even live stream thru Facebook.

## User Scenario

Imagine holding the ocean in the palm of your hand. This is the idea behind CHASING DORY, the world' s smallest underwater drone. DORY dives deep in terms of premium features, yet it' s plug and play set up and the highly shareable nature will make this underwater drone a favorite among backyard pool fun seekers to the serious adventurer alike. DORY' S Wi-Fi buoy is wirelessly connected to your mobile phone or tablet device, up to 50 ft away. With a 50 ft wired tether between the drone and the buoy, there is plenty of room to explore any underwater world.

\* Suggested to use in calm waters like a sea, lake or pond.
