# CATALOGUE

Distribution Morissette is proud to present the new 2022 price list edition with references to the product inventory, as well as information relating to special orders.

This catalogue also provides information about our products, codes, prices, and specifications related to each item. Do not hesitate to use this tool to inspire your customers!

Note that Emtek and some of the Baldwin products are available through special orders and do not appear in the catalogue.

For any questions or quotes, please contact us.

We look forward to serving you.

# POLICY

## 1) Shipping costs

Shipping costs will be charged for all orders:

### a) For Québec and Ontario

Box pack:

All orders less than \$500 net

Visual pack:

All orders less than \$750 net

\$12.25 for the first 10 pounds and \$0.53 for each additional pound

For residential address : \$16.25 for the first 10 pounds and \$0.53 each additional pound

### b) For New Brunswick

Box pack:

All orders less than \$750 net

Visual pack:

All orders less than \$1000 net

\$27.95 for the first 10 pounds and \$0.68 for each additional pound

For residential address : \$34.50 for the first 10 pounds and \$0.68 each additional pound

Please note that certain regions may be subject to other charges.

## 2) Return policy

No merchandise can be returned without the head office authorization. See the return policy for new products in Section L. See the return policy for the warranty in Section M.

## 3) Filing a claim for missing or damaged merchandise

All claims for missing or damaged merchandise must have been noted in writing on the delivery receipt of the delivery carrier.

If the delivery receipt is signed without a specific written annotation regarding missing or damaged merchandise, the merchandise shall be considered as having been received in its entirety and in good condition.

## 4) Payment term

Interest will be calculated for any past due account, as stipulated on the lower part of the invoice. Note that the merchandise may not be delivered due to inappropriate delay in payment.

## 5) Administration fees

According to our terms, administration fees at a rate of 2% per month will be charged for all unpaid invoices (24% per annum).

## 6) Manufacturer's warranty

Distribution Morissette Inc. serves solely as an intermediary for the application of the warranties of the manufacturers it represents, and cannot be held responsible if any manufacturer elects not to honour its warranty or ceases its operations.

## 7) Price

All prices are subject to change without notice.

Thank you for your confidence!

## MERCHANDISE RETURN POLICY

1) All merchandise returned for shipping or product error on our part should not be used, be in its original package with no annotation or inscription other than those initially identified by us. Do not write anything on the merchandise package.

2) A copy of the invoice should always follow each merchandise return. Distribution Morissette will only accept merchandise sold by Distribution Morissette.

3) All merchandise that has been subject to individual orders made by you cannot be returned. The only exception is a shipping error on our part.

4) All merchandise exchanged under guarantee will be delivered with carriage paid. For all other exchanges, shipping fees will apply if the minimum purchase amount required to qualify for prepaid shipping by us are not met.

## RE-KEYING LOCKS

**Residential re-keying lock**  
\$12.39 re-key lock cylinder list

**Commercial re-keying lock**  
\$16.89 re-key lock cylinder list

Re-key two or more locks to just one key. The key to the 1st lock is re-keyed to open all required locks.

**Residential re-keying master lock**  
\$16.89 re-key cylinder lock list

**Commercial re-keying master lock**  
\$19.15 re-key master cylinder lock list

A master key is a key capable of operating multiple locks (2 or more locks), each lock being operated by its separate key.

**Supplemental key**  
\$6.76 each

An additional key copy is provided with a lock. (Usually, manufacturers provide two keys per lock)

# GUARANTEES

## Guide to determine the applicability of the warranty

To find more information concerning each manufacturers' guarantee, please visit their website.

## Essential criteria to determine the applicability of the warranty

- 1- The manufacturers' guarantee specifies that the warranty only applies to the original owner who purchased the lock.
- 2- The original owner must show proof of purchase
  - i) Without proof of purchase, no guarantee.
- 3- The original owner of the lock must return to the store where the lock was purchased initially
  - i) The warranty does not apply other than in the store it was originally purchased.
  - ii) If the store no longer exists, the consumer must contact the manufacturer.
- 4- Manufacturers' warranty does not cover labour
- 5- IMPORTANT: Normal wear and tear of a product do not represent a defect in itself.

## What to do if the five basic criteria are met

**Option #1:** Always try to repair or replace the defective part in question.

**1-** We will be happy to repair or supply replacement parts for all our customers (when available) for any broken locks that you have sold and that we distribute.

**IMPORTANT:** Never replace a product in its entirety without receiving prior authorization from us to do so. If the product can be repaired, we will undertake the repair and have the merchandise returned to you.

**Option #2:** When the product cannot be repaired

**1-** You must communicate with our offices or representatives to determine the applicability of the warranty before changing the product in its entirety.

We may need photos or additional information to ensure that the product is indeed guaranteed.

**2-** When the product in question has more than five years' wear if the problem is related to the finish or more than ten years' wear if the problem is mechanical, the manufacturer's authorization must be obtained before the product can be replaced in its entirety.

**N.B.:** Please note that you must always keep in mind the warranty's criteria before replacing the product in its entirety.

# GUARANTEES

## What is covered

**1** - Warranties (whether lifetime or for a specific number of years) only covers defects in the material, in the product's assembly or in the finish. It is important to note that the term 'defect' does not include normal wear and tear.

**2** - The replacement of a defective part is the preferred course of action rather than to replace the product as a whole; this is at the discretion of the manufacturer.

**3** - That repairing the product is always privileged and it is at the discretion of the manufacturer.

## What is not covered

**1** - The warranties state that anything resulting from a cause other than a defect is not covered.

**2** - That normal wear and tear of the product is not covered  
i) Wear, deterioration or damage due to the use of the product over a reasonable number of years does not represent a defect in itself nor a warranty, but is instead considered normal wear and tear.

**3** - Any indirect cost-related or due to a defect is not covered

**4** - That all labour related to the repair, uninstalling and installing the product is not covered

**5** - That any improper use or installation is not covered

**6** - That damage due to lack of maintenance is not covered

i) Lubrication  
ii) Cleaning with mild soap regularly

**7** - That exposure to inappropriate environmental conditions are not covered  
i) Example of high humidity

**8** - That the warranty does not apply to the finish in the case of:  
i) Discoloration over time due to exposure to sunlight  
ii) Scratches and wear due to the use of the product

**9** - That the warranty does not apply if a product breakage is due to rust or mildew  
i) For example, the handle lever's spring breaks due to weakness caused by rust; this may be attributed to a lack of maintenance (lubrication) or to environmental factors (high humidity)

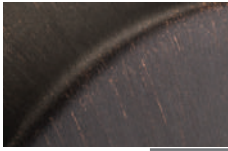

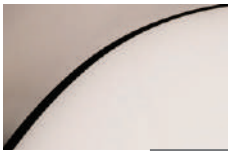

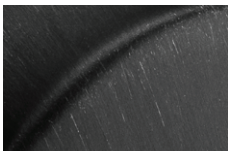

## IMPORTANT

**1** - You must communicate with our offices or representatives to determine the applicability of the warranty before changing the product in its entirety. To ensure the product is guaranteed, we may request photos or additional information.

**2** - When the product in question has more than five years' wear if the problem is related to the finish or more than ten years' wear if the problem is mechanical, the manufacturer's authorization must be obtained before the product can be replaced in its entirety.

*This document is for informational purposes only and does not replace the guarantees.*
