

The Quantum Analyzer Machine Test

The Quantum Analyzer Machine is an exciting new device that can help **diagnose and test for diseases** in a matter of minutes, breaking barriers to traditional diagnosis- no false positives or negatives!

The product is developed in collaboration with the Chinese company that manufactures the original of this type of product. The software part is developed in Canada.

The device is CE-compliant and the software is in English and runs on Windows (all versions). The device allows the analysis of different chemical and organic elements of the body: organs, blood system, metabolism, chemistry, substances (minerals, vitamins, metals ...), bone and other systems components, prediction of pathologies ... (See below). A report with advice finalizes the analysis.

Quantum Magnetic Resonance Analyzer Review

The quantum magnetic resonance analyzer replaces the use of examination using chemical analysis, ultrasound, magnetic resonance imaging or radiography for diagnosis. Simply taking a sensor in the palm of your hand, data on various health systems of the body are collected in a few minutes.

The magnetic resonance analyzer provides new advantages in the field of analysis of the constituents. The new method of quantum resonance magnetic analysis can be used to quickly and accurately measure different substances in the body, such as cardiovascular and cerebrovascular conditions.

It is especially useful for studying how medicine or health products may help improve a person's condition without requiring them to undergo invasive procedures.

Features Benefit of Using Quantum Machine

1. Quantum Magnetic Resonance Analyzer (QMRA) is a high-tech innovation that combines the best of medicine – Bio-Informatics, Electrical Engineering and other sciences.
2. It's also suitable for family use.
3. The quantum health body analyzers have 52 test reports,

4. It's enough for the professional and daily use.
5. It collects the weak magnetic field of human cells for scientific analysis, and then determines the health of a person.
6. Serves as a replacement for major medical instruments like ultrasonic, nuclear resonance and other familiar medical equipment.
7. Non-invasive health analysis without blood or radiation.
8. Detect health changes before the appearance of symptoms of diseases.
9. Provide Comprehensive Information on Your Health Status.
10. Health Check Up Has No Side Effect.
11. Cost of Quantum Medical Test Is Affordable
12. Its accuracy rate is between 85% and 95%, and it takes only two minutes to produce the results.

Applications and Uses of Quantum Analyzer

1. Families who want to monitor the health condition of their members
2. Health practitioners: Family doctors, acupuncturists, nutritional therapists, reflexologies, alternative, naturopathic and holistic practitioners, etc.
3. This instrument is an ideal promotion tool for beauty salon, SPA club, clinics, health examination center, health food/nutrition supplement/health care products shop, direct selling, massage center, etc.
4. Members of the Spa and Wellness Industry.
5. Corporations and communities who would like to have a general health assessment of their employees or members without the need to expensive work ups (even before they become grossly ill and in need of hospitalization or expensive medications).
6. Companies that produce or sell health products.

The Package Included

1. Mini Quantum Analyzer Machine
2. USB Cable Line
3. Detecting/ testing Handle Grip
4. English User Manual
5. Encryption Lock
6. CD Software
7. Shockproof Bag

How To Operate and Use Quantum Full Body Analyzer

This product is Compatible with Operate Computer System: 1. Win98, Win Me, (install Microsoft Office is premise) 2.Win XP, Vista, Win 7, Win 8 3.Win 2000 series , Win 2008 Server series , Win 10.

1. Uninstall your antivirus software
2. Install software in PC with the CD.
3. Connect all of lines, such as USB Drive to PC, USB Key (open the software use), the metal stick line to Machine.
4. Open the software.
5. Hold the metal stick, and choose start testing.
6. After 1 minutes, it will auto-show the test result.

Warning:

This product is not intended for the diagnosis, cure, mitigation, treatment or prevention of any disease.

Analysis principle

The human body is an aggregate of numerous cells, which have continued to grow, develop, split, regenerate and die. Until death, cells renew themselves. For adults, about 25 million cells divide every second.

Blood cells renew themselves continuously at a rate of about 100 million per minute. These emitted electromagnetic signals by the human body are the signature whether it is healthy or unhealthy. Quantum analyzer is a new instrument to analyze this phenomenon.

Elements Analysis

The quantum analysis magnetic resonance method is a fast, accurate and non-invasive diagnosis. The main elements of analysis are: cardiovascular and cerebrovascular disease, bone mineral density, trace elements, heavy metals, rheumatism, lungs and respiratory tract, kidney, blood glucose, the stomach, intestines, liver, gallbladder, cranial nerves, gynecological, prostate, bone diseases, trace elements (selenium, iron, zinc, calcium, etc.)..

Functional characteristics

Prediction without symptoms. The device can predict the precursor of disease and effectively prevent the various chronic diseases.

Speed and accuracy

The time-saving and cost saving benefits of the analysis system are clear: you can receive multiple indications about your health within minutes.

The database has been established with scientific methods that contribute to accuracy at an unprecedented level, making it a valuable resource for those who want more information in order to make decisions regarding their well being quickly and efficiently.

Non-invasive and painless

The analysis will tell you the condition of your health without ultrasound, nuclear magnetic resonance, X-ray or other invasive test.

Simple and practical

It is simple in operation, easy interpretation, without the need of health checks, and it can be done anywhere and at any time.
