Your Officers and Board Members appreciate your support of our Society as indicated by your letters, and your membership in our Genealogical and Historical Society.

Our organization has the same purposes as when organized in 1972, but you will notice a slight name change, voted at the February 1975 meeting, adding the words "and Historical" to our official title. We are hoping to expand some day in the future and, presently, grants are more easily obtained through historical museum and library sources, than genealogical ones. We have a "young library" started in the basement of the Jacksonville Public Library. The County Commissioners of Morgan kindly donated us a 3-section library case. Jean Maire of Jacksonville, Florida, formerly of Carrollton, has given us many wonderful books and research papers. She and Mrs. Mary L. Whitlaw are our first two Life Members of whom we are very proud for their interest in promoting the aims of our Society. One of our dreams for the future is the establishment of a genealogical and historical research center for West Central Illinois.

We have just come through the sale of the 1878 *History of Morgan County, Illinois* reprints with flying colors, and wish to take this opportunity to thank all of those who were so prompt in sending in their orders. We acquired many more new members also.

On Friday, March 14th - at 7:15 A.m. James Dean of Unigraphic delivered the first books to the home of our Publications Chairman, Miss Lucille Crawford. This was a surprise since they came a month ahead of schedule! To date we have sold 285, and have 65 more to sell at \$19.00 plus 95 cents tax for Illinois residents. Better get your order back as soon as possible - if you want some for Christmas gifts next winter, as we do not plan to sell any more after May 15th!

OLD SETTLERS REUNION IN GREENFIELD ILLINOIS AUGUST 30, 1907

From *Greenfield Argus*, Fri. Sep. 6, 1907

"The annual gathering of the old settlers was held in Coonrod park, north of this city, on Friday last, August 30, in conjunction with the annual picnic of Rubicon township. The fish fry, conducted by the Rubicon M.E. Church, was liberally patronized, the receipts amounting to \$100. W.F.EADS, who was in charge of the cooking department furnished some most appetizing returns. The morning program began at 11 o'clock, the band filling in the time very acceptably. Mayor C.J.DOYLE was the master of ceremonies ... Rev. W.S.GERMAN offering the opening prayer. [A list of deaths of those over 50 reported as being in ARGUS the week before].

"A very interesting description of early pioneer life, as experienced by Mr. and Mrs. James H. GARY, of the Fayette vicinity, was read by Chairman Doyle. [Reported as being written for the *Carlinville Democrat* two years ago]. Mr. Gary is now aged 86 years and came from Kentucky to this section of Illinois in 1825. It gave the younger generation something to think about as regards present and past opportunities and privations.

..."Squire Ed MINER, of Carrollton, ...was introduced as the Mark Twain of Greene county, and furnished ample proof ...that he is more of a J. Whitcomb Riley. ...He gave a local coloring to his verses by a poetical grouping of the following names of those who have helped to make Greenfield history:

There were the WYLDERS and ALLENS, a notable band,
With COOPERS and KINGS, also Steve and Joe HAND;
And BOOKER and FRENCH and LEDBROOK, M. D,

And BUCHANAN, called Mike, a good one to see,
As were the CALDWELLS and BURROUGHS, the HARTSOOKS and STOUTS.
While the CULPS and the CANNEDYS we would not leave out.
The CORNINGTONS and DICKERMANS, EDWARDS and FINCH,
And Surveyor CAPPS, sure that name's a cinch.
Now the WOOLLEYS and HEATONS and old Dr. HOOD,
And a preacher as well who accomplished much good.
And COWDENS and STUBBLEFIELDS, CASWELLS and SPEAKS,
CLEMENTS and PICKETTS, the SAXTONS and MEEKS.
Now the FORDS and the HALES, WAHLS and BARNETT,
And COONRODS and DUNLAPS we must not forget,
Nor CAMERONS and SHEFFIELDS, nor OSTROM I.R.,
Who never were quoted one whit below par.
Then come KINKEADS and STOCKS, WILHITES and CRESS,
While BRODMARKLE and LILES fit right here, I guess.
And now the SECORS and SKILLINGS, a goodly array,
Some of whom I have met on the grounds here today.
Then CARTWRIGHT, old Peter, who loved well the church,
And WITMER and RUSSELL who wielded the birch.
Also KITCHEN and SCANETT, BOGART and LEE,
Who rode o'er the circuit for a very small fee.
Then McCABE and VANCLIVE, PITNEY and HALE,
Who filled their appointments each without fail.
And now come the BANKSTONS, the HASKINS and BIRD,
All preachers whose voices are no longer heard,
As well as TROTTER and SPRINGER and PHILLIPS A.E.,
With CHAMBERS and HOLLIDAY and WILSON, you see.

(continued next page)

Also PRENTICE and PETER, AIKENS and RIVES,
And DAVIDSON and BATTY with exemplary lives.
We would not miss CONVERSE, the METCALFS and CROUCH,
Nor the DOYLES and CARTERS, lest you deem us a grouch.
Then CALLAWAYS and ROLLINS, HAVENS and DRAKE,
A better array we could now hardly make.
Then here come the JOHNSONS, the BELKIAPS and PARKS,
With HUTCHINSON and FISHERS, BASSHAMS and MARKS.
Also PIPERS and WILKINSONS, the RENSHAWs and MAYES
Must close up the list lest you think it a craze.

[Note: the Hutchinsons listed are not related to your Editor. But in 1959 we purchased a farm formerly owned by Mr. Hutchinson. They had two daughters named Mary and Judy, and so did we! Ours is Hutchison.]

"Congressman Henry T. Rainey, of Carrollton, was next introduced and made a most impressive address. He said his grandfather was one of the earliest settlers in Greene county, coming from Kentucky in 1817, and lived out his busy life here. ... He predicted that within ten years a great ship canal would be constructed from Chicago to the gulf. ... He predicted that corn would be selling from 90¢ to \$1 per bushel within ten years owing to corn proving to be such a valuable food product. ... Land which is now selling from \$100 to \$125 an acre he predicted would be selling at from \$175 to \$200 per acre, and will be cheap at the price. He thought Greene county one of the garden spots of the world. ..." [And so did we in our sojourn of 17 years in Greenfield!]

Advice a Specialty

An unidentified exchange reports that a certain farmer answered and advertisement which was headed "How to get more eggs," and enclosed a dollar fee. The advice was simple: "Raise more hens."

RECORD OF MORGAN COUNTY HOME FOR RELIEF OF PAUPERS

From 1830 to 1952

Compiled by

*T. O. Hardesty, M.D., County Physician

Before 1830, the Paupers were under the Jurisdiction of the Courts, and were Boarded out to private homes. This was not satisfactory, therefore, in 1835, the County Court appointed a Board to plan for a more efficient manner in which to care for the indigent. On September 15, 1835, this Board met to discuss, and report to the Court, a system of better regulation, maintenance, and support of paupers in this County, and to draft a plan of a building for the object contemplated.

Seven Years passed before a contract was let to build a Poor House. In 1842, a Contract was let to D. C. MEDCALF to build such a home for \$500.00. In September, 1842, Charles R. WILSON was appointed overseer of the Poor-house and instructed to command and take charge of all present paupers and remove them to the building. This was the First Poor House.

In 1843, an addition was built for insane cases, this building was said to have been on East State Street.

An Abstract of the land the County bought shows it was purchased by Morgan County in 1848 and sold in 1866. Details of the Abstract are as follows:

James BOORMAN and Mary BOORMAN to Morgan County - Consideration \$700.00. 14 Acres situated East of Jacksonville, Bounded North by the center of Springfield Road, being EAST side or part of the W $\frac{1}{2}$, NE $\frac{1}{4}$, NE $\frac{1}{4}$, SECT. 21 - Township 15 - Range 10 - 3 PM ...Deed Book HH, Page 469, dated December 15, 1848.

The above land was sold in 1866. Records show the following information:

Herbert G. WHITLOCK, Stephen DUNLAP and John HARDIN, Judges of the County Court of Morgan County, Illinois to John SPRINGER and Joseph R. ASKNEW - Consideration \$13,375.00.

14 Acres side W $\frac{1}{2}$, SE $\frac{1}{4}$, NE $\frac{1}{4}$ and East $\frac{1}{2}$, SE $\frac{1}{4}$, NE $\frac{1}{4}$ Sect. 21, SW $\frac{1}{4}$, SW $\frac{1}{4}$, NW $\frac{1}{4}$ Sect. 22, Township 15, Range 10.....Containing 44 acres more or less.... Deed recorded in Book 2, Page 314, Dated March 1, 1866, Recorded June 5, 1866.

S.W. MARTIN, Commissioner to John R. ASKNEW and John T. SPRINGER - Consideration \$13,375.00. Same description as above.....Deed recorded in Book 2, Page 264, Dated December 9, 1870, Recorded June 17, 1871.

In 1866, the County Commissioners bought of Cornelius S. GOLTRA and His Wife, 200 Acres of Land and the Building thereon, three miles N.W. of Jacksonville, Illinois, for a Poor Farm. Consideration was \$12,250.00. All inmates of the Poor House were moved to that farm. The County continued to operate the place as a home for relief of paupers up to December, 1951, when it was closed down.

*This article was found typed and placed in a black book for historical interest, and placed in the Jacksonville Public Library by Dr. Hardesty who was County Physician for around 50 years. There are brief articles, also, on the State Hospital and Oak Lawn Retreat in the same book. We chose to publish this article to go along with the Morgan County Farm records we discovered in the Courthouse archives which are being made public in our Geneal Journal for the first time.

[Paupers received from the old poorhouse October 5 and 6, 1848, were Maria, Hannah and Charles SHERWOOD, B. Elizabeth LAKE, Rebecca GROUND, Joseph DUNHAM, Milly JONES, Jacob FANNING and Jacob VARNER. See pages 12, 13 & 14 "Morgan County Poor Farm Inhabitants 1848-1853," Jacksonville Geneal Journal, August 1974, Vol. No. II, Issue #2.]

At times there were as many as seventy inmates cared for at one time. After the State started to pension old people, the pensioners left the Farm and it was necessarily closed.

All Morgan County Insane Cases were cared for at the County Poor Farm until passing of a State Law forbidding keeping insane cases there.

Roster of the Superintendents who managed the County Poor Farm from 1840 until the time it was closed in 1952 is as follows:

A MORGAN COUNTY MAP

We have included a map of Morgan County so that when the legal description of a cemetery, school or church is mentioned, or an ancestor is specified to be on a certain Section, Township, Range and Prime Meridian (PM), our members will have a reference map handy. They can also see the names of some towns nearby to their relatives, or cemeteries, and get a glimpse of the 3 railroads that crisscrosses Morgan County. They are, currently, the CHICAGO, BURLINGTON & QUINCY, the GULF, MOBILE & OHIO, and the WABASH. (Cannonball?)

The word TOWNSHIP is confusing because it has several meanings. We will try to differentiate two of them, so that if we mention CONGRESSIONAL TOWNSHIP, you will understand its boundaries as being different from CIVIL TOWNSHIPS, which are a governmental unit on a local basis to a given town.

1. CIVIL TOWNSHIP: an area of territory within a County having the status of a unit of local government headed by Township SUPERVISORS. The boundaries have no relationship to the 36-square mile township, except by coincidence.
2. CONGRESSIONAL TOWNSHIP: a piece of land bounded on the East and West by Meridians six miles apart, having a NORTH-SOUTH length of six miles, beginning #1 Township on a specific surveyed BASE LINE which runs EAST-WEST. We describe land as being, i.e., NW $\frac{1}{4}$ of Sec 1, T14N, R8W, 3PM. It is always necessary to include the PRIME MERIDIAN (PM), as this specifically pinpoints the land. Leave that PM off, and the rest of the description fits any other survey state, as far as Section, Township & Range goes.

These specifically numbered Congressional Townships 36 miles square, more or less, comprising 36 sections of land, or any fractional part thereof, were created by a Law passed by Continental Congress in 1785. As you know, Section 16 out of each Township was set aside to be sold to provide money for establishing schools in the area. ★

Morgan, Scott, Cass and Calhoun are 4 of the 17 counties in Illinois having a BOARD OF COUNTY COMMISSIONERS as the governing body. They are elected at large from the entire county. Therefore, maps of Morgan shows VOTING PRECINCTS, ROAD DISTRICTS, SCHOOL DISTRICTS, and Fire Protections Districts, and not named Civil Townships, as in the other 85 counties of Illinois.

6	5	4	3	2	1
7	8	9	10	11	12
18	17	16	15	14	13
19	20	21	22	23	24
30	29	28	27	26	25
31	32	33	34	35	36

On this map we have drawn heavier lines to distinguish the 19 Townships, or fractional parts thereof. This will be an important factor when we pinpoint our numerous cemeteries for you in the future issues of our Jacksonville Geneal Journal, as we hope to do soon. If you are a beginner and do not understand this system, then I urge you to find an experienced genealogist who will teach it to you -- this is one of the most important factors in genealogical research to consider.

Towns shown on this particular map of Morgan County Area:

ALEXANDER	CONCORD	MURRAYVILLE	ROHRER
ARCADIA	FRANKLIN	NEELYVILLE	SINCLAIR
ARNOLD	JACKSONVILLE	NORTONVILLE (Youngblood)	SOUTH JACKSONVILLE
BETHEL	LITERBERRY	ORLEANS	STRAWN'S CROSSING
CENTERVILLE	LYNNVILLE	PISGAH	WAVERLY
CHAPIN	MARKHAM	PRENTICE	WOODSON
CLEMENTS	MEREDOSIA	REES STATION	YATESVILLE (shown in wrong place)

★ Your Editor has found the old book in the Courthouse which lists petitioners for sale of School lands in their township. Very hard to read. If some member would pay costs of xeroxing, I would send a copy for them to index for us to publish some day. Good at reading handwriting?

HOW TO DETERMINE AGE FROM DEATH AND BIRTH DATES

Your President wants to pass on to all the members some information picked up from a kind undertaker who explained the procedures involved in determining Yr - Mo - Da age from death and birth dates. It might come in handy for you genealogists at some point in your research.

1. Set down Death-year, month and day expressed in numbers, as below:

Death:	Aug. 20, 1973	1973	8	20
Birth:	Jun. 10, 1901	subtract:...	1901	6 10
				<u>72 yrs 2 mos 10 das</u>

2. To "borrow days" when numbers are unequal:

The formula: 1 month = 30 days

Death:	Aug 20, 1973	1973	8	20
			730 das
			8	+20
				<u>=50 das</u>
Birth:	Jun. 10, 1901	subtract:...	1901	6 -30
				<u>72 yrs 1 mo 20 das</u>

3. To "borrow a month":

The formula: 1 year = 12 months

Death:	Aug. 20, 1973	1973	8	20
			212
			8	+ 8
				<u>= 20 mos</u>
Birth:	Sep. 10, 1901	subtract:...	1901	9 10
				<u>71 yrs 11 mos 10 das</u>

Given a death date and yr-mo-da, one can reverse the process to find the approximate birth date. This will not give exact date of birth, because 12 mos X 30 das = 360; whereas we actually have 365. However, this would give a date within five days to look for death certificates, births, etc.

SO, YOU WANT TO DIG !

Harriet E. Willard

This is intended primarily for those who have not really started on the genealogical trail, but are slightly interested - seeing as how so many other folks are having a lot of fun! A few simple suggestions may get the tyro off on the right tack, or may scare one off entirely. Either result will prevent wasted time and effort.

First, answer a basic question: "Why do I want to trace my family tree? Where are the roots?" That seems a very elementary question, but it is one you must answer honestly. Most people who are totally uninterested in genealogy seem to feel that this is a field worked only by stupid old ladies who have time to kill, or by equally stupid snobs who want to unearth a fabulous background of wealth, importance and nobility. That attitude is an error. Nowadays you find about as many retired gentlemen perusing the genealogical materials as women. Stupid old ladies couldn't survive a good day's digging, and the snobs usually hire a professional genealogist. I must admit that in my more than 50 years of research in many places, I have met a little snobbery, but its percentage runs in low figures. A dedicated researcher lacks the time to spend on trivial aims.

So, what is YOUR goal? Deciding this will not make any difference in your earliest procedures, but will make a great deal of difference as you continue delving deeper. Decide what you want to accomplish, and set your course toward that goal. Don't be surprised if you find that some preliminary digging turns your goals in a new direction. Be flexible. A good tip here -- don't forget to check out all maiden surnames. Every bride had a papa, you know! He might not have willingly given her away, but she got her name changed anyhow.

Next question: "Are you equipped to make a good researcher?" Babies come equipped to walk, but they have to spend a lot of time figuring out what to do, first. But here are some standard rules thrown out to geneal newcomers:

Ideally you should be:

a. PHYSICALLY FIT

Digging ancestors may look like a pastime for the lazy, but one day's WORK in a genealogical Library with a conscientious tutor to guide you will prove that this is hard work; but you soon become so interested you forget your aches and pains -- and sometimes you even forget to eat! (That's a good way to lose a little "weigh".)

B. MENTALLY ALERT

One pro listed the skills you should have. Among them were ability to read Wills, Deeds, Court Records, etc., and understand them; familiarity with maps; knowledge of history; experience in library science; logical thinking, etc. Her list of skills went on and on, -- but don't let that scare you off - you'll learn as you go (or grow, mentally, that is.)

C. HONEST

It may surprise you to know that there are dishonest researchers, and they have been in operation for centuries. In a scholarly article in the New England Hist. Gen. Society Register (Vol. 76, p. 295-301) Andrews Moriarty, Jr. mentions "the most notorious pedigree forger of the Elizabethan Period." If you get far enough you will discover that dishonesty and inaccuracy have left us a muddle in many lines which may never be untangled.

So, no matter what you find, BE HONEST - BE EXACT-- and BE EXPLICIT in GIVING SOURCES AND PROOFS of marriages, births and deaths.

D. CURIOUS

The ability to put 2 & 2 together and come up with 22 helps; a fondness for solving puzzles helps; an imaginative turn of mind helps. Many times a stone wall may be surmounted by a flight of imagination based on sound reasoning, or pulling facts together.

E PATIENT

This is really the most basic asset. When you have "come to the end of your rope," as the old saying goes, "tie a knot on the end and hang on!" Sometimes you just have to put a line aside and start on another. However, NEVER throw away what you have found. Someday that apparently useless tidbit might be the KEY that will open an important door.

Having read this far you are probably saying: "Sounds complicated, but where do I start?" So, on to the first gate you must open.

Begin your search in the most familiar spot -- BEGIN WITH YOURSELF. Start by putting down on paper your own genealogical data -- "Born - when and where".

Now let's stop right here to get one thing straight. BE HONEST. If you are "one of those people" - and believe me there are plenty, both men and women, who have been lying about their age for years, (oh well, maybe not lying, but at least hiding their true age) - put away your pencil and quit right now. You really can't get away with it anyway. People who really want to know how old you are can find out easily enough. There are dozens of places where your birth is recorded. If you can't put your true age down on paper, what will you do if you find that your ancestors were horse thieves and not kings? (Anyway, it takes a smart man to be a horse thief - kingdoms were inherited by fools many times!)

If you can't put your true age down, what will you do when you find a Black Sheep in the family of Southdowns? BE HONEST. Set down his birth, marriage and death dates and leave off one of his addresses. If you don't advertise his most famous address, who's going to know it? And about your true age - someday it may be very important legally that your true age be known. You might do yourself great harm by falsifying a birthdate! The risk is not worth the difference of a few years wrinkles. You might develop more wrinkles than usual from some legal hassle about your age!

Put down your birth date and place. Add where you lived at various times. Include your schooling, marriage, children, etc. In other words, do a capsule autobiography. You will be surprised at all you don't know about yourself - just off the top of your head - and will have to find some remote reference around your home. "Now I know I put it where I could find it! But where is it?" (It's strange how things seem to run and hide just at the moment of your greatest concern.)

Do the same for your brother and sisters. Are the dates available for all your own children? (You'll probably have to write to all of them for dates - yes?) A tip -- leave the family of your spouse alone until you can think only of that necessary data you need. If you get the families going at one time you might become very confused.

Next, write down all you know about your parents and grandparents. If there are elderly aunts or uncles around, go see them and get them talking. Better have a good tape recorder along. Old folks generally love to tell about their childhood. Write down what they say. Try to find out - with lead-

ing questions - but not too many at one time - where they lived when they were young - where they went to school, etc. But use that ingredient PATIENCE, so as not to disturb their train of thought. Some of what they say may be wrong in another relatives view, but their opposing views gives you something to check for further facts -- and do check these sources before it is too late!

When you have all you can get from the family, start on County Histories. In the 1800's there was a great fad for publishing county histories and Atlases. which included biographical material and places of residence. These volumes were financed by families included. Often the data was written by some member of the family. There may be much misinformation, but there will also be facts hard to find leads on otherwise. A man might make himself appear to be more important than he really was, but he would know his own name with its own peculiar spelling, his wife's maiden name, his parents, brothers and sisters, and his children. He might even know how old they were and where they lived. Don't treat County histories as gospel, but do use the data they supply as clues for your next step in the "Look Program".

Cemeteries are helpful if you have a fairly good idea of where an ancestor lived. Beware of accepting gravestone dates as infallible evidence. They can be wrong. I have a letter in which a man says that when his father died, nobody knew when the father was born. His wife and several children survived, but they had to "guess" how old he was. In cemeteries, also, beware of cockle-burs, sand fleas, chiggers, poison ivy and snakes! Ghosts will rarely bother.

This looks like enough for a FIRST lesson. Next time we'll discuss other tools such as census records, state archives, wills, and probates of estates. In case these articles are too far apart, in the meantime you can go to your favorite library and have your librarian show you the genealogical section where you will find standard references on know-how of family research.

Kindergarten dismissed. Happy hunting! Start today!

Editor's addenda: Harriet is currently working avidly on a supplement to her very limited edition of the "*Willard's of Illinois*". Copies are on file at the Jacksonville Public Library, the Illinois State Historical Library, and Newberry's in Chicago. She has recently had eye surgery which has slowed her genealogical progress. If you are a relative - write her at 1830 Mound Avenue, here in Jacksonville. You might get your branch attached to the ever-growing Family Tree of her husband, Robert I. Willard. I don't guarantee a prompt answer, as she is gone on exploration trips frequently. She's a Digger!

In connection with Harriet's presentation, we are here reproducing a list of the burials in the "Old Atkinson Cemetery" in McDonough County, Emmet Township, Section 31 near Colchester because a Morgan County American Revolutionary soldier, William Willard, was found buried there with his daughter and other relatives.

The following gravestone readings were made by Goldie M. McCord and Virgil R. Foster in 1964. In 1959 Robert I. and Harriet E. Willard, of Jacksonville, located William's grave after much searching in Morgan County. William's wife, Jane (Cooke) Willard, born in Ireland, died about 1833 and was presumably buried in Jacksonville East cemetery. But the gravesite has not been definitely located by the Willard's.

THE "OLD ATKINSON CEMETERY" IN McDONOUGH COUNTY, ILLINOIS

"The Atkinson cemetery in McDonough County is described as follows:
"NE $\frac{1}{4}$ of Sec. 31 and 48 acres from the East side of the NE $\frac{1}{4}$ of Sec. 31 in Emmet Township. There is a deep ravine on the east which circles around to the northwest. There was no fence [1959] and cattle have been allowed to roam over the graves so most of the stones are lying on the ground and will probably be trampled into the ground".

It seems such a shame that the gravesites of our early patriots has been allowed to fall into such a state of unconcern, and that William Willard's grave has never been honored with a fence and a marker.

Wishful thinking on the part of your Editor: wouldn't it be great if some patriotic organization in McDonough County would get permission from the present landowner of "Old Atkinson Cemetery" to fence the area and erect a flag pole tall enough so that Old Glory could be seen from some nearby highway - proudly flying during this Bicentennial Era when we are trying to honor the patriots of the American Revolutionary period?

MORGAN COUNTY FEES FOR LEGAL RECORDS

The foregoing 3 pages of Estate Administrations in Morgan County [up to 1900] are only a few of thousands administered since the establishment of the County Court in 1823. The log Courthouse burned December 6, 1827; therefore the records start as of December 7th. Everything burned except one deed book in the home of Recorder Dennis Rockwell who was making entries that night; therefore, Deed Book I starts in 1823.

Always carefully note the names of administrators and executors. This may be a clue to daughters' married surnames, or other relatives you can check out.

For copies of Wills and other legal court records, write Joe Casey, Circuit Court Clerk of Morgan County, Jacksonville 62650.

The Fee Book established by the Court lists law documents at 50 cents per page, with a minimum fee of \$1.00. If the page is written on both sides, the Clerk charges only 50 cents for the two sides.

Should a person desire certification, that is another \$1.00 regardless of the number of pages. Specify whether you want copies certified, or not.

The xerox is made of the original Will in the Filing Box we list as "Case Number". Since one cannot predetermine the number of pages in a Will, a person can make the order and be billed for the amount due.

In our search through numerous filing boxes in Morgan County, we have found that most of them [not the early ones] contain a Petition for Letters Testamentary. This names the administrator or executor, plus the heirs, and gives decedent's death date.

Genealogically speaking, this is the major information needed. Sending one dollar with your request for this petition would simplify matters. If a Will were involved, you could ask for its cost with this letter.

For copies of Birth, Marriage and Death Certificates [since 1878], the fee is \$2.00 each and all are certified automatically. Barbara Gross is County Clerk. Please include the money for these requests. If they are not on file, your money will be returned. This is their policy at this writing. We hope it continues.

Marriage, death and birth records after 1915 may also be ordered from the State Bureau of Vital Statistics, 500 block, West Jefferson, Springfield ILL 62702. Their fee is \$2.00 each. They used to keep the entire amount whether the record was on file, or not; however, I believe they have changed their policy recently. Better test this one out.

If you can't find these records at the County Clerk's office, nor the State Bureau of Vit. Stats., you might assume that the person you are seeking was married, or died in another county or state, or the name spelling might be different. If the birth has failed to be registered, you can request papers for filing a delayed birth certificate. The papers include directions.

Please do not expect County Officials to do genealogical research for you, because they are inadequately staffed, and are hard-pressed to keep up with the current business of their respective offices.

Make your letters to them brief and to the point - legible as possible. Be courteous, officials are human, and respond to kindness, as we all do.

If a family history seeker would desire a researcher of our Society to search for names in various indexes, we would appreciate the inclusion of a dollar, or so, for taking the time and trouble. Even a stamp and an envelope is always appreciated by our volunteers. It does cost a little money for gas these days, you know. None of us live at the courthouse!

HELP US COMPILE OUR 1975 SURNAME INDEX FOR MEMBERS OF OUR SOCIETY

To make this Surname Index work effectively for you, to make it easier for our researchers to look up vital statistics in our area, and to hasten publication of a 1975 Surname Index booklet, please follow instructions exactly.

- A. Set down information on each ancestor you are seeking on a ruled INDEX CARD 3" x 5". (See sample card with information next page.)
Up to 12 cards per Society member may be sent. (See address below.)

EDITOR'S NOTE ABOUT QUERIES SENT TO THE SOCIETY

This is our first attempt to include Queries in our *Geneal Journal*, which is also rather a new (and lonely) venture into the "publishing business." We would like to have your comments as to the format, the contents, and any suggestions for change or additions.

We gleaned the above Queries from letters sent to the Society. We are sorry many persons have not received answers to their letters of inquiry, but there are several good reasons why this has not been possible. Sometimes the indexes we search have no person listed by that name. Sometimes a year later we might find some reference. Some inquiries are easy to answer with information readily available. We have received some very nice compliments from the happy recipients. This raises our "happiness hormones" too. Thank you all "out there" for letting us know "that we hit the nail on the head".

All letters cannot be read *in toto* at our meetings, but they are gleaned for the vital information and given to the Society verbally. Sometimes there is someone who is working on the particular family mentioned, and they take the letter to answer. This helps a lot.

Lucille Crawford, our efficient Financial Secretary and news writer, makes short requests with person's address in the newspaper so that the information is spread "far and wide". We hope some answers are filtering back to some of you. We can please some of the people part of the time, but not all of the people all of the time. You may be next on the "HELP WANTED" list!

Lucille, Elizabeth & Florence had a sudden attack of "Heart Happiness" March 20 while putting this Geneal Journal together - our Society received a \$100.00 check for our THIRD LIFE MEMBER! George E. Caldwell, Box 23, Williamsville ILL 62693. Thanks! it made our labors suddenly light and very worthwhile!

LIST** A list of Members for 1974 was on pages 31-33 & p. 2 of the Jacksonville Geneal Journal, August 1974, Vol. No. II Issue #2. Please note that this was our first regular issue of a Journal. Two previous ones were workbooks.

The end of the alpha-

 History of Morgan Co. 1878.

Since we have space left, we will give a
 surname index of the members of the John W. Ross
 Post No. 331, Grand Army of the Republic, of
 Waverly, ILL. This was contributed by Mrs. Guy
 W. Martin of that city. This would give you an
 idea as to the County location of these Civil War
 Veterans, and probable place of burial.

 800 POSTS OF THE GRAND ARMY OF THE REPUBLIC IN ILLINOIS
 By Florence Hutchison

We still have copies of this complete list of Illinois
Grand Army of the Republic Posts (Civil War Veterans'
 Organizations). Send \$1.00 to our P.O.Box 21 for a copy.

We sent a copy to each of our members in 1974. If you do not have any use for
 it, please donate it to some genealogical Society, or to a Library which makes
 genealogical collections. There is no other record of this important genea-
 logical find any place else.

The ^{local} records of these G.A.R. Posts may be lying forgotten some where in your
 community - the library, the last survivor's relatives, etc.

We have found the Matt Starr book in our Public Library here. Mrs. Martin
 at Waverly found a notebook of records of the John W. Ross Post. The pre-
 ceding page has an alphabetical list of the members.

The Greenfield Post Records are in the Greenfield Public Library there.
 They are open only twice a week, so you need to find out when it is open
 if you plan to have a look at the splendid records of Veterans to be found
 on its pages.

We are giving the basic information of the Calhoun Post #448 next.

G.A.R.* Date of Muster: The age of the veteran is based upon his enrollment into the Post of the Grand Army of the Republic.

The above is an example of the information to be found in the local Post records. Other information not given here for lack of space includes the Date of Entry into the Service of the U.S., the man's Rank, Company and Regiment. Date of final discharge, Rank, Co. and Regiment. Length of Service. Cause of discharge. Date of Muster into the G.A.R. (date given in column 6.) When honorably discharged from the post, suspended, dropped, dismissed, reinstated, or transferred to another post because of a move in residence. Occasionally date of death is given. Sometimes the cemetery might be mentioned. It all depends upon the care of the man who was in charge of the records.

To find where many of these Civil War veterans are buried (not only in Calhoun, but other counties), look up the Honor Roll of the County in which you believe the veteran to be buried. They are listed first by cemeteries being alphabetical, and the men in each cemetery alphabetical.

There have been complaints that the Illinois Veteran's Commission records are not accurate, etc. I believe that people have confused the first set of records at an earlier date than the 1956 issue. I believe that the Adjutant General's records were referred to as Roll of Honor. Inquire about this at the Illinois State Historical Library. It always pays to run down as many leads as possible. Next, will be the counties to be found in various libraries of the Illinois Veterans' Commission pamphlet of 1956 termed HONOR ROLL OF _____ COUNTY, STATE OF ILLINOIS

HONOR ROLL, MORGAN COUNTY, STATE OF ILLINOIS,
ILLINOIS VETERANS' COMMISSION, 1956

by Florence Hutchison

Vital information concerning veterans of all wars (up to 1956), buried in Illinois cemeteries, can be found in a large booklet issued for each of the 102 counties in Illinois in 1956 by the Illinois Veterans' Commission. Look for the title as in the sample for Morgan -- "HONOR ROLL, _____ COUNTY, STATE OF ILLINOIS." These veterans include the American Revolution, Black Hawk, War of 1812, Civil, World War I, etc.

The cemeteries listed in the specified county are listed alphabetically, with a list of soldiers the IVC knows are buried there. Just to peruse the list of the numerous cemeteries involved provides another source of information a genealogist can draw upon for important data. This is an easy way a person might locate the burial place of a serviceman relative.

I checked the copies available in the Illinois State Historical Library recently, and realized that many genealogists have missed this valuable reference due to scanty reference in the index cards. It comes under the words "HONOR ROLL". In this case, the card says, "Incomplete file. See Shelf list". When I asked to see the shelf list to determine what counties were in the Library, I was not permitted to look at the shelf list., but the Librarian gave me a list later to publish. There should, in my estimation, be a card added to the index cards at the St. Hist. Library in each County indicating that a copy is available.

The call number is UB83.4, I298H, listing title as at above heading. There was an early publication under the title "Roll of Honor". I do not know publication date. I have heard many complain that this IVC list is inaccurate, but I believe that they have confused the two issues, and that it is the earlier one that had many errors.

The call card lists the following information: "It includes the names, burial places, and other related information concerning all members of the Armed Forces of the United States buried in the State of Illinois ...prior to July 1, 1955." It consists of an oversize pamphlet for each County of the State, arranged alphabetically. But not all pamphlets are in this particular Library. Following are the ones at the Illinois State Historical Library:

ADAMS	COLES	HANCOCK	MASON	PIKE	WHITESIDE
BOND	COOK (3 vols.)	HARDIN	McDONOUGH	PUTNAM	WOODFORD
BOONE	CUMBERLAND	HENDERSON	McHENRY	SANGAMON	
BROWN	DeKALB	HENRY	McLEAN	SCHUYLER

CALHOUN	DOUGLAS	JERSEY	MONROE	SHELBY	
CARROLL	EDGAR	LOGAN	MONTGOMERY	STARK	
CASS	FRANKLIN	MACON	MORGAN	TAZEWELL	
CHAMPAIGN	FULTON	MACOUPIN	MOULTRIE	UNION	
CHRISTIAN	GALLATIN	MADISON	PEORIA	VERMILION	
CLARK	GREENE	MARSHALL	PIATT	WARREN	

There are some of these pamphlets at the State Archives that you can look at when you go there. I do not know what counties they have on file.

Here in Jacksonville we borrowed copies from various places and xeroxed the information. The JACKSONVILLE PUBLIC LIBRARY has copies of Calhoun, Greene, Macoupin, Morgan, Pike and Scott.

In your County find the location of your local Illinois Veterans' Commission Office. They will have copies of the pamphlet and may let you borrow it to xerox as our kind gentlemen did. There are no extra copies available of this particular printing. If you need the local address, send for a list of such offices to the Illinois Veterans' Commission, West Jefferson Street, Springfield, Illinois 62702. They will send you a card listing all of them. They are trying to update all cards on servicemen. If you find one wrong in their book, please send them the proper information. They will be glad to have the new information.

Following is a list of the pamphlets not in the Illinois State Historical Library, that one has to find elsewhere:

ALEXANDER	FORD	KANE	LIVINGSTON	RANDOLPH	WAYNE
CLAY	GRUNDY	KANKAKEE	MARION	RICHLAND	WHITE
CLINTON	HAMILTON	KENDALL	MASSAC	ROCK ISLAND	WILL
CRAWFORD	IROQUOIS	KNOX	MENARD	SALINE	WILLIAMSON

EFFINGHAM	MODAVIESS	LAWRENCE	POPE	WABASH	
FAYETTE	JOHNSON	LEE	PULASKI	WASHINGTON	

For those of our readers out of the State of Illinois, who cannot find these books in genealogical libraries in their area, we make the offer to search the book of a county in our possession. Since this involves some bit of time and effort by some very busy researchers, we would appreciate the donation of a dollar for this effort, and a stamped addressed envelope, please. For the most part we have used personal funds to xerox the records in the first place. Were one to do all of his xeroxing in one day, he would be appalled at the cost! By doing it a few pages at a time, we don't notice the expense, do we? I am sure this is true of all genealogists. On the other hand, the costs of xeroxing lessens the costs of travel to get the info. So, take your choice. Genealogy is a costly hobby. But isn't it rewarding?

Another source for finding these oversize pamphlets of the HONOR ROLL for your County is the State Library, 3rd floor, Centennial Building. Which ones are on hand, I do not know; maybe all of them. You cannot check any books out of this library now, but they have a splendid research department there. You can xerox anything you wish for 10 cents a page, and take it with you. As most of you know, I am sure, at the State Historical Library under the Old State Capitol downtown, they charge 15 cents per page - they do it for you - and mail it to you later.

Happy Hunting for your serviceman ancestor!

Some News Notes to Use Up the White Space:

A new member, Mrs. Doris Sanford of Coral Gables, Florida, wrote immediately to your President upon reading about our finding the early Jacksonville Cemetery readings in the State Genealogical Quarterly of last December. She offered to index this if I could send a copy. The book was very old and dilapidated. I built a wooden frame to encircle the book snugly, and put a piece of heavy plastic on one side. The City Clerk gave me permission to xerox the book. I laid the book down flat, laid the frame over it, and gently turned it over to rest face down on the plastic while xeroxing. Doris is now indexing 1868-88!

The Society is taking orders for a reprint of the 1873 HISTORY OF MORGAN COUNTY,
ILLINOIS, formerly published by Donnelley, Loyd & Co., Chicago. Book will be
same size and print as in 1873, except it will include a new index with 16,000
entries. Postpaid delivery is scheduled for April, 1975.

Pre-publication price until February 23 \$17.00 plus 35 cents tax
to Illinois residents. After March 1, 19.00 plus 35 cents tax.

Your Officers appreciate your support as indicated by your letters and member-
ship applications. This is our only way to pay for the ever-rising costs of
publishing a Journal. Organized January 26, 1972, the Society's membership as
of December 1974 is 146 from 20 States and Canada. Join the crowd - and enjoy
the fellowship!

I feel sure that you have said many times: "I'll do that little job when I get a Round TU-IT" - now, haven't you?

Here's your chance to catch up on all those important neglected writings, recordings and indexing of your genealogical and other research. Let your motto henceforth be: "TU-IT NOW"
