2. To send membership applications, and allow Charter Memberships until April 1st, for new members. (See page 4 of this letter)
 If said member has already sent dues, will he please post our Membership Application Blank in some prominent place, or give to a friend?
3. To let you know some of our achievements which have been possible because of your support of a new organization, and research projects unfolding.
 We ask your continued support of our efforts during 1973. While some may benefit more than others, we hope that you will have faith that something good will come of your membership in this Society, and that you will -- like good parents -- stand by us "in our babyhood"! We need "mothers and fathers". If you have good ideas, or cemetery records of any county, please write. We may not have time to answer all letters promptly, but they give us something to think about - to look toward - to develop our thoughts and action.
 Some letters have inspired us, and were very much appreciated. These letters are helpful in directing our organization toward the kind of a Society that will help many people with their family research.

When we read the various family names involved, we sometimes find other persons working on the same history, and bring the two of you together. Our Surname Index has served this purpose well.

We wish to apologize to those persons who did not get their surnames in the first issue. We hope to compile a second Surname Index later.

Note: Please expect a 3-page supplement to your Surname Index Issue of the Jacksonville Geneal Journal Vol. 1 #1 Sept. 1972, within a few days after receiving this newsletter.
 (Those who received them at a meeting, will not get a letter.)

4. To call attention to a BIG NEW G.A.R. PROJECT -- locating the records of the 69 G.A.R. Posts in West Central Illinois -- getting them copied, and into the DATA RESEARCH CENTER your officers are trying to establish here in Jacksonville, to serve West Central Illinois genealogy.
 (See next 2 pages on G.A.R. Posts)

4. (Continued -- Newsletter # 2, 6 March 1973 - Jacksonville Area Geneal. Soc.

Your President's intensive research has revealed that local Post Records of the G.A.R. (Grand Army of the Republic, Department of Illinois), are very valuable genealogical tools, and extensive, for persons seeking service records of their Civil War ancestors.

These local records are "hanging in limbo" - waiting to be discovered!

There were 330 G.A.R. Posts in Illinois prior to the 1871 Chicago Fire.

Decatur was the #1 Post. All state records were destroyed by the 1871 fire.

All national records were lost about 1888 by fire.

After the 1871 holocaust, Rockford Post became #1, and started reorganizing and re-numbering the Posts. While records are scanty, and remote, it has been determined that there were about 800 posts organized in 102 counties.

Mrs. Hutchison is working on the list, trying to complete and make a Comprehensive Index of G.A.R. Posts in Illinois for publication as soon as possible, so that genealogists all over the state will know what to look for in the community or county of their interest.

The local post records seem to be lying in the homes of the descendants of the last Secretary, or Commander of the Post.

Will you help us find these for those counties we call West Central Illinois? (See following page for list of posts by county and location).

If any person discovers such a record book in his community, would he please notify our Society immediately?

We would appreciate any person copying, or zeroxing out this information and sending to the Jacksonville Area Genealogical Society, P.O. Box 21. We will put these records in our Data Research Center Files, and use them in answering queries as to Civil War Veterans.

Later, we hope to publish the names of these Civil War Veterans in local newspapers, asking relatives or friends to furnish date of death, and place of burial. We will eventually pass this information on to the Illinois Veterans' Commission to complete their records, and provide markers where none are now.

These G.A.R. Post records list the name, rank, company, regiment and date of service, age, state of birth, occupation, and other valuable info, depending upon the local secretary, and Commander of the Post. Some record books give personal war sketches of many of the veterans.

Your President has copied the service records of 168 members of the Thomas A. Weisner Post #350, Greenfield, Greene County. Mrs. Guy Martin is copying the records of about 200 men in the John W. Ross Post #331, Waverly, Morgan County. We found a roster of about 200 men in the Matt Starr Post #378, but not the original records. We found a list of the 15 men in the Governor Yates Post #687, both Posts in Jacksonville. This is a fine start for our Data Research Center File!

This project is a BIG UNDERTAKING. Will you please cooperate in finding these records? Make copies of them, and send to our Society.

5. Our other BIG PROJECT is the collection of cemetery readings from any county in West Central Illinois -- or anywhere! for that matter. Our motto is: "SEARCH - FIND - RECORD - SHARE!" The important thing is to draw information to a central Data Center in Jacksonville, for the use of genealogists in our area. We plan to share our findings with other County Genealogical and/or Historical Societies in the area, -- and hope they will reciprocate.
