

Capability Statement

History and Growth

Harbor Vault Data Solutions., is a Maryland based, Information Technology firm. Over the past 16 years we have established ourselves as a firm that designs, develops, and implements innovative digital transformation, systems modernization, and talent augmentation services. Our clients are primarily large and medium firms, professional sports, engineering firms, large education companies and internet service providers. Our mission is to improve our client's competitive edge in an ever-evolving technology landscape while always driving costs down with innovative solutions and automation. We accomplish this by having engineers with over 20 years of experience in the industry and giving them the tools to deploy cutting edge technology to meet the customer needs. Examples of our diverse range of capabilities include, but are not limited to:

<u>Networking</u>	<u>Security</u>	<u>Cloud</u>
