

This training brought to you through a grant by the
National Rural Water Association & Iowa Rural
Water Association.

IRWA AND IDNR WS SAFETY TRAINING

The Iowa Rural Water Association would like to invite you to join us and your peers for a FREE training workshop. Get valuable information you need from our expert trainers to maintain compliance with state regulations. With a variety of topics, presentations, and speakers, our training meets the requirements of system specialists (operators), office staff, management, and decision makers.

This training class will include a water plant tour with several staged hazard scenarios along the way. Be ready to discuss any safety incidents or near misses you've experienced on the job. Learn how to prevent and mitigate your risk while providing safe, clean, great tasting water.
