

This training brought to you through a grant by the
National Rural Water Association & Iowa Rural
Water Association.

WATER TESTING AND LAB PROCEDURES

The Iowa Rural Water Association invites you to join us for a free workshop co-sponsored by Eurofins Environment Testing.

Get a sneak peak behind the workflow and operations of the Eurofins Environment Testing Lab in Cedar Falls, formerly known as TestAmerica. Training will include a lab tour of operations followed by a review of lab methods and procedures. Learn how the lab prioritizes samples by hold times at sample receipt to the lab bench and to your final report. Learn about the different methods the lab uses to generate quality data.

Please Note – workshop is limited to 10 participants that have not taken the tour previously and max of 2 per water system.
