Shelley Branca-

A clone of Dr. Branca trapped without memory of past life in Nix as scientist & creator of Earth.

King Cole -

A hacker that is compelled to get into Earth and help Shelley have good experiences and blessings.

Genaro -

Shelley's husband assigned to destroy her self-esteem and make her a bad influence for Nix.

Synopsis

In a beginning it started on planet Nix where Radix , family was murdered & did not receive burial rites. The alleged murderer, Raven, lies dead before Radix whom is supposed to perform burial rites. Vengeful Radix damns consequences & lets Raven die and a sacred seal is broken. Nix splits in two creating new dimension called Earth.

New dimension Earth 2021

No color, art or music exists here. Shelley Branca is author of a book causing people worldwide to believe in it. As she is interviewed she invites everyone to meet her in Manataka in Arkansas. TV cuts her off mid-sentence.

Shelley arrives to Manataka where she is met with overwhelming crowds. They perform a ceremony which had only been native to land almost wiped out. They summoned The Finished One who is an inter-dimensional being who has no idea Earth exists.

The Finished One arrives learns the perils of Earth & Nix which he vows to fix in 1 day. He calls for help & the planet in its belly brought others to help, called forth art & music to guide him then gave Earth color. They all jump through time portal including Shelley.

The Finished One is in Nix where he is betrayed by Marshall who pushed him off vehicle face first into boulder & leaves him for dead. The Finished One is found & hospitalized in coma. Where he is sold to AI tech for experimentation.

Fast forward to future Nix where this new dimension is discovered by Dr. Branca who is a scientist at her father's AI tech company. Diabolic her uncle Chairman of AI tech, bought the finished one and is holding him secretly in a coma for experimentation. Dr. Branca creates a virtual reality portal to Earth. Eventually Steve begins recruiting prisoners to volunteer for the program and training for their freedom.

Scott, Kevin and Yahshua volunteered in return for their freedom once it's done Dr. Branca falls in love with Scott then discovers Diabolic has Sinister intentions.

During experiments Diabolic kills Yahshua who then is trapped on Earth unable to return back to Nix in his body. This creates a crisis for AI Tech so Diabolic clones Yahshua and passes them off for his success story of prison reform. The implanted AI chip controls Yahshua clone to assure guise continues on.

Dr. Branca fearful she will end up dead or put in Earth she seeks to find a way for her father to help her after discovering that Diabolic has cloned himself, killed his parents, lost telepathic abilities and acting unlike himself. More experiments go wrong and covered up. Dr. Branca starts recruiting everyone to help her if she ends up inside.

Diabolic creates a virtual reality game that ends up leading to time travel being created and Diabolic sends assassins back in time to kill every version of Yahshua to cover up the truth he was documenting in temples. He finally puts Dr. Branca in Earth without her memories and makes her a TV show about his prison reform clients. Many atrocities happen to Dr. Branca now Shelley Branca and the Nix population rise up to help her get justice.

Hacker King Cole decides to find a way in and out of Earth so he can manipulate things in Shelley's favor and eventually there were volunteers going in to make music to help guide her. She had no idea. She lived her life best she could and this influenced the viewers to fight for her to get out. Eventually leading to Diabolic's AI chip taking control and killing all those in power and cloning them. Then they were trying to send AI back in time to establish their deception on Earth.

In time Marshal begins to see similarities of The Finished One and Shelley Branca and decides to go into Earth and make music to help her. It works for a while but Diabolic determined to use her to corrupt Nix so they can start losing their supernatural gifts, forced Genaro to marry her and destroy her self-esteem. Husband fell in love delaying outcome. But was forced to take her children and burn down her house with her & children inside.

Fast forward Nix demands all the leaders step down & King sending more people in to guide or bless her. He reveals she isn't a prisoner and incites a run-on AI tech to get her out forcefully. The unfolding events unknown to Shelley she is being watched & people are trying to help her. She just living best she can.

Finally, she begins to rise up and improving her life inspiring those watching. Shelley Ends up writing a book called Something to believe in and once again it stirred the people in both worlds. She invited them all to go to Manataka and they came and finally summoned The Finished one again. Simultaneously He awakened in Nix and emitted a global EMP destroying all technology in both places at once.

All those controlled by AI were free. Nix was taught the way to live righteously through watching Shelley live out her life. Shelley was invited to join the finished one and all the inhabitants of the land of love in its belly and they passed on the gathering at Manataka to remember all that had taken place. ALL was right in the world, true to his word in 1 day.
