## **Public Comment** - Attendees were present

- Bill Carson asked several questions. (Why are people still being allowed to live in travel trailers and wanted to know if water was being charged to them. In past history they were not allowed to do this and were removed. He was told that there was going to be a garage built on property that does not have the room to do so legally. Also mentioned they would be cutting down a tree)
- Doug Weiss asked about water meters and is concerned that they should be already in use.

## **Planning Committee Update** -

- Larry spoke about the CRA (Conservation Resource Alliance) approving 2 Grants, and was asking to see if the project management team should be the person listed on the Grant.

## **New Business** –

Salt Storage Facility – To build one would cost about \$70,000. We can get bids to do so, and put into the budget for next year. Because the cost is so high, it was discussed that starting an account to put the money needed to build one aside would be a better option.

## **Other Business**

- Snivley tires have been removed.
- There should be a blight citation sent to McGrady residence. The fencing was removed but there is still a machine in the yard and beds. Also the septic tank is open
- Alleyway width is 12 feet. If TJ's fence is on the property line, can the Village ask the property owner to have a survey done?

**Adjournment** – Motion made by Mike Kondrat Jr., seconded by Brandy Marvin. All in favor. Gabe adjourned meeting at 8:10 pm.
