

YCAIR*

Your Creativity and the AI Revolution

*Help found a new Havre de Grace Discussion Group
that aims to transform our creative endeavors and
their community impact with or despite AI.*

- **Session 1. Beginning:** Listen to Eric Howard from [fathom.company](https://www.fathom.company) describe how [Bracing for the AI Revolution](#) will affect creative work. Discuss using Thoughts, Questions, and Epiphanies (see TQE in next week's item). Learn how easy it is to use AI by clicking on [ChatGPT](#).
- **Session 2. Exploring:** Read [The Big List of Class Discussion Strategies](#) and reflect on which approach best fits your endeavors. Discuss using TQE [The Ten Principles of Changing Wisdoms](#).
- **Session 3. Exploring continued:** Discuss using TQE how your creative endeavors contribute to the [Vision for the Havre de Grace Community](#) as healthy, inclusive, vibrant/connected, cultural/historic hub, cohesive environment, sustainable, and fiscally-sound government.
- **All later sessions. Sustaining:** 2 hours where 2 to 4 creators each bring a contribution based on one of their creative endeavors and decide on a discussion strategy for either a 25- or 50-minute period.
- **Follow up. Inspiring:** Decide what you will do next with your creative endeavors to transform the Havre de Grace community and beyond.
