Services for Victims

Referrals: The Victim Advocate is familiar with community resources and can assist victims in securing needed services.

Criminal Justice Information and

Advocacy: Perhaps the greatest difficulty for many crime victims in the midst of a traumatic experience is trying to understand and prepare for involvement in the criminal justice system. Through the Victim Advocacy program, victims receive information on the process and procedures of the criminal justice system. Victims receive on-going information on the status of their case. Crime victims can request that a Victim Advocate accompany them in the courtroom or attend in their place.

Crime Victim Compensation: The Victim Advocate is familiar with the Victims of Crime Compensation Program. The Advocate is available to assist the victim in completing the application for compensation.
