Description of research

The purpose of this project is to demonstrate the diversity of plant-based medicines being used to treat Covid-19 in different countries and regions, which may help with managing the impact of the disease.

What is expected of me

We are contacting you because you are knowledgeable in plant-based medicine and respected in the community. It is expected that you will provide accurate information to the best of your knowledge.

What will happen to the information

Data collected will be compiled into an open-access, academic research publication. If anyone wants to use this information to create products for sale, they must first contact the source of the information and come to a benefit sharing agreement with that organization or individual, as defined in the Convention on Biological Diversity and the Nagoya Protocol.

Potential benefit or harm

Potential harm is unknown. Knowledge gained from this project may be used to help manage the impact of Covid-19 in some countries.

Statement of consent

I have read and understood the above information and I agree to participate in this project.
