(This is Your Name) I am a local neighbor and community member and I have volunteered to write a recommendation for your student to receive a merit based college endowment scholarship award. These awards were given to the colleges by former students and alumni to help them attract certain profile students to their campus and your student has been identified as one of those candidates.

To receive application details, please visit my web page (your last name) dot edfunds dot org.

In your browser window just type:

N A M E dot E D F U N D S dot O R G and click all four links on the page to receive full details. Deadline dates are approaching so take action now as all resources are committed on a "first applied" basis.

If you missed any of this, you may call back or if you prefer, just leave your name and number at the tone and I will call you back personally with additional details. Congratulations on your student's selection.
