

# **Systems' Approach to Vedic Astrology**

Vedic astrology, also known as Jyotish, is the divine science of light on time and karma. It gives each of us our own birth chart to use as our personal karmic blueprint. It is our individual map of the heavens.

This gift unlocks the mysteries of our own light and helps us navigate all of life's journeys. We can see the personal patterns that have been activated in this lifetime and from there we can use our free will to change our karmic positions in life.

The Systems' Approach to Vedic Astrology was developed by Professor V.K. Choudhry in Gurgaon, India. It is based on classical Jyotish principles and was tested under the empirical studies of more than 100,000 charts over a 20-year period. It has been shown to give an accurate and precise horoscope analysis.

Using this system that has been tested time and time again, you will discover your strengths, weaknesses and the timing of all life's events.

See below to learn about what you can expect during your consultation.

First, you will need to provide me with your exact time, place, and date of birth. Using this information I will create your personalized natal chart and it will look something like this:

The initial part of your consultation will include general information about your natal chart, such as personality traits, natural tendencies and talents. It will also include areas of strength as well as weaknesses that may be causing trouble in your life. You will learn what you can do to fix these weaknesses and these are called astral remedies and they are simple, quick and effective. They are the essence of astrology.

The second part of your consultation will include more detailed information about where the planets are today and how these planets are operating and affecting your life (planetary transits). This is where you will learn which area of life to focus your energy on in order to achieve the greatest results in life!

This is called the transit chart and will look something like this:

The final part of your consultation will include information about the timing of events. This information is seen by looking at the current and future main and sub periods. This is known as the Vimshottari Dasha sequence and is like the crystal ball of Vedic Astrology. It will show you the past, present and future general trends of your life.

It looks something like this:

Vimshottari			-	+	↑	↓
Ju-Me	Wed	Apr 18,2018				
Ju-Ke	Fri	Jul 24,2020				
Ju-Ve	Wed	Jun 30,2021				
Ju-Su	Thu	Feb 29,2024				
Ju-Mo	Tue	Dec 17,2024				
Ju-Ma	Sat	Apr 18,2026				
Ju-Ra	Thu	Mar 25,2027				
Sa-Sa	Fri	Aug 17,2029				
Sa-Me	Fri	Aug 20,2032				
Sa-Ke	Mon	Apr 30,2035				

Overall, the consultation and analyzation of your chart will identify the weak and debilitated planets as well as the badly placed and afflicted planets. You will learn which astral remedies to use to strengthen your favorable planets and more importantly how to pacify your unfavorable planets.

If you do the prescribed remedies, be a conscious, kind and caring person, take good care of yourself, be of service to others, meditate and dedicate yourself to a regular spiritual practice you will inevitably improve your life. Any or all of these efforts will make a difference in your life and raise your vibration.
