

## **Systems' Approach to Vedic Astrology**

The Systems' Approach to Vedic Astrology was developed by Professor V.K. Choudhry in Gurgaon, India. It is based on classical Jyotish (Vedic astrology) principles and was tested under the empirical studies of more than 100,000 charts over a 20-year period. This system has been shown to give an accurate and precise horoscope analysis time and time again.

Using this tested system, you will discover your strengths, weaknesses and the timing of all life's events. It will shed light on any areas of trouble and offer a twofold astral remedy to help strengthen your favorable planets and pacify the planets causing adverse effects in your horoscope.

When you become aware of **How** the planets are operating in your life, **When** the planets are operating in your life and **What** you can do to improve the quality of your life you will change your destiny.

With the knowledge of Vedic astrology you can meet predestined events with your free will and transform your life!
