

Assessment of Motor and Process Skills (AMPS)

AMPS Online PLUS 30-day course

This course will commence on 7th October 2021

Participants will complete the AMPS Online PLUS course with a combination of synchronous and asynchronous online learning

Participants will be given guidance about the browsers the asynchronous online course works best in prior to commencement of the course

Participants will use the email address they register with to access the asynchronous online course throughout their training, so should ensure they have access to that email during their study time

Participants will be asked to complete some pre-course reading

Synchronous Online Learning

- ✓ Five 1-hour 'live' virtual group sessions will be facilitated by UK AMPS teaching faculty (via Zoom)
- ✓ Sessions 1 - 4 occur weekly throughout the 30-day course
- ✓ Session 5 occurs approximately 4 weeks after the final course date.

Asynchronous Online Learning

- ✓ 14 pre-recorded, interactive modules to complete
- ✓ AMPS scoring practice is included in this course
- ✓ Calibration cases are included in this course

Study time

The AMPS Online PLUS course requires a minimum of 40 hours study time.

This includes synchronous and asynchronous learning and self-directed reading.

Study days are scheduled as follows:

Week	Date	Time
Week 1	07-10-2021	09:15-10:15hrs synchronous virtual session 9 hours self directed study
Week 2	14-10-2021	10:30-11:30hrs synchronous virtual session 9 hours self directed study
Week 3	21-10-2021	09:15-10:15hrs synchronous virtual session 9 hours self directed study
Week 4	28-10-2021	09:15-10:15hrs synchronous virtual session 9 hours self directed study
Follow up week	02-12-2021	11:00-12:00 synchronous virtual session
