LEAVE NO ONE BEHIND MURAL PROJECT

INSTRUCTIONS TO SCAN QUICK RESPONSE (QR codes)

To use QR codes conveniently you must have a smartphone equipped with a camera and a QR code reader/scanner application feature.The newer smartphones models available today often have an app pre-installed on them. If this is the case, you are ready to begin scanning QR codes. Otherwise, to download a QR reader visit your phone's app store (examples include the Android Market and Apple App Store) and download a free QR code reader/scanner app.

Once you have a QR Code reader installed on your smartphone, you're ready to scan your first QR Code. Doing so is very easy. Just follow these simple steps.

1. Open the QR Code reader on your phone.
2. Hold your device over a QR Code so that it's clearly visible within your smartphone's screen.
3. Two things can happen when you correctly hold your smartphone over a QR Code.
    1. The phone automatically scans the code.
    2. On some readers, you have to press a button to snap a picture, not unlike the button on your smartphone camera. If necessary, press the button.
4. Your smartphone will now begin to read the code and navigate to the intended destination, which doesn't happen instantly. It may take a few seconds on most devices.
5. Read, Listen, View and Share. Don't forget to tag the project's social media and use the following hashtags, #leavenoonebehind #newwayforward #homeishere #fix96#leavenoonebehindmuralproject #repatriateourpatriots #familyreunification
