

Christmas Wreath Bow

The directions are the same as [Halloween Wreath Interchangeable Decorations](#). The difference is the materials you choose will be Christmas themed as is the bow in the picture. *Note - you will need a metal wreath hanger.*

- Pick your ribbon and make your bow.
- Glue your magnet to the back. (I used a hot glue gun)
- Attach it to the hook of your metal wreath holder to complete a wonderful festive wreath.

You may apply this same idea to Christmas ornaments to use as refrigerator magnets as well.

SO. MUCH. FUN!
