This one-of-a-kind Roman Shade was commissioned for a house remodel project. It is made with 12 different blue fabrics and six browns. The "quilt" is not hand quilted as my other pieces are, but machine stitched where the staves are for raising and lowering the shade. The shade is in 2 separate panels so that only one can be open at a time or both. The shade covers a pair of French doors that lead out to a large deck. Two pairs of matching pull back curtains 33"x 67" made for the two other windows in this master bedroom suite.
