Hand Stitched Thread on Hand Marbled Textile
****Available for Purchase - \$2,300****

The *Aged Psychedelic* series is the beginning of my exploration of transferring the marbling process to textiles. All these pieces are small compared to most of my work. This series of ten pieces uses airbrush paint as the dye to create the marbled surface design. I have found that the airbrush paint changes the hand of the textile ground and makes my signature dense hand stitching more difficult to achieve.

Aged Psychedelic #3 continues my exploration of using the geared drawing tool, Wild Gears, for designing my hand stitched designs directly on the artwork. The colorations are visually bold in this artwork and the stitched design is recessed into the background. There is so much potential for expanding both the marbling technique and the gear design set as a design tool for hand stitching to my larger pieces in the future.

This artwork is designed to be displayed in either a horizontal or vertical orientation and will be spectacular paired up with several of the other pieces in this series.
