At some point in our lives, we all feel the need to stop and reflect on where we have come from, where we are currently, and where we want to be in the future. *Retrospection* is my interpretation of just that. It features over 150 different commercial fabrics from the 1950s to the present. They were assembled, cut apart, and reassembled to create this dynamic work of art. It needs a generous wall space to really set it off and let the artwork be the focal point of the setting.
