

Substance Abuse Partial Hospitalization Program (PHP):

Partial hospitalization is a skilled treatment program for adults, providing 4-5 hours of service per day, four days a week. Participants attend sessions during the day and return home afterward. This program is an effective alternative to inpatient treatment for those who do not pose an immediate risk of harm. It can also serve as a step-down option from 24-hour inpatient care and crisis services.

Both IOP and PHP participants will receive weekly psychotherapy and medication management sessions. The ultimate goal for each program is long-term recovery and overall wellness.

Staff Include:

Licensed Mental Health Professionals (LPC/LCSW)
Licensed-eligible Mental Health Professionals (Resident/Supervisee)
Certified Substance Abuse Counselors (CSAC)
Psychiatrist
Licensed Professional Nurse (LPN)/
