

Paul came to LW in 2010 from Damascus MD after a career as a computer programmer. Since living here, he has been very involved in the LW community. From serving on his mutual board and LW BOD – three years as Chair – throughout most of his time here, he has served on several committees and is president of a few clubs.

Living with his mother, he has always greatly enjoyed this community and is very committed to assuring the quality of life of all LW residents.
