**TBA:** Upon arrival at Jomo Kenyatta International Airport, meet and greet with an A&K guardian angel and transfer to your hotel and overnight.

Nairobi is the largest city between Cairo and Johannesburg. Though just south of the equator, it enjoys a spring-like climate. It is a modern city, yet its main avenues blaze with colour from tropical bushes and vines. Less than 100 years ago, there was a river in an empty wilderness where Nairobi now stands. Despite health hazards and the ever-present danger from wild animals, Nairobi became established by 1907 and quickly grew as a white farming community. It also attracted world attention as the centre of big-game safaris for the rich and famous. Perhaps the most famous was the safari of Teddy Roosevelt, which needed 500 porters to carry supplies and returned with 500 trophies. The nearby Nairobi National Park boasts the presence of all but one of the 'Big Five'. Nairobi

has a wealth of international restaurants. Cuisine of all types is available from Chinese to French and Italian. Several restaurants also offer local favourites. Nightlife varies from dining out to going to local nightclubs with discos and bands. Shopping in Nairobi varies from African clothing and craft shops to bazaar stalls and open-air markets where souvenir hunters find bargains ranging from woodcarvings to Persian carpets. There are 3 excellent museums, offering insights into the fauna, culture, and history of Kenya.

**0800hrs:** Meet your driver-guide in the hotel reception for a half day sightseeing which includes a visit to Daphne Sheldrick Elephant Orphanage (1100hrs), visit ocean sole flip and lunch at a local restaurant. Return to the hotel later in the day.

Set on the edge of Nairobi National Park, the Sheldrick Wildlife Trust was set up by the late Dame Daphne Sheldrick in 1977 in order to raise and rehabilitate orphaned wild animals (mainly elephant and rhino) and later successfully reintroduce them into the wild. The sanctuary provides a perfect home for growing youngsters, with the habitat and space mimicking those that elephants enjoy in

the wild. The orphans grow up in mini herds, are bossed about by mini matriarchs and enjoy mud baths, filled with a hose pipe, when they slap wet mud to their skins as sun block and insect repellent. Their care in the sanctuary is described by the head keeper during the public or Private visit, as are the harrowing reasons many became orphans, mostly the result of poaching.

Arrive at the Ocean Sole Workshop in Karen where you will be greeted by the team; Ocean Soles' mission is to collect flip flops that have washed up on Kenya's beaches and in the Nairobi waterways and turn them into beautiful works of art. Every year the company transforms 47 tons of flip flops into these unique pieces and creates full time employment for over 100 people and supports a further 1000 individuals from whom they buy the flip flops. See how the flipflops are washed, sculpted and finished off on a tour of the workshop; then sit down with one of the head

artists to create your very own flip flop animal. He will guide you every step of the way from sticking the blocks together, working the 'punch' machine, carving out the edges and finally sanding it smooth. This is a wonderful way to support this project, learn how they are making an impact as well as having your very own animal to take home with you.

Hemingways Nairobi is a boutique hotel in the serene, green suburb of Karen. The hotel bears South Carolina plantation style dimensions, huge verandahs and enormous windows that let all the light in and deliver views across the knuckles of the Ngong Hills. Inside a graciously winding Gone with the Wind staircase leads from the lobby to the top floor. The hotel sports 45 beautifully furnished rooms with high ceilings and king sized beds. And, despite an elegant retro feel - punkahs gently paddle the air to keep it cool, potted palms dot the interior - is up to the minute modern with express check in, WiFi, spa and gym. Hemingways prides itself on a uniquely individual service which includes a personal butler who will assist with unpacking as necessary, pressing anything that's creased in transit, delivering morning tea and generally anticipating your every whim.

Breakfast at the hotel followed by checkout.

1030hrs: Meet A&K representative at the reception area for your transfer to Giraffe Manor for check-in & Lunch.

Giraffe Manor sits within 140 acres of indigenous forest in Karen, a pretty, leafy Nairobi suburb. Built in 1932, its design mimics that of a Scottish hunting lodge. That makes the manor unusual, but it's home to endangered Rothschild giraffe which makes this place so distinctive. You won't be the only ones enjoying this little hotel's fine dining. Twice a day giraffe stroll gracefully out of the forest to poke their noses greedily through the dining room windows to examine leftovers. There are only a few hundred Rothschild giraffe left in the wild, but the Manor works alongside nearby Giraffe Centre to run a breeding programme which aims to reintroduce the species back into the wild. Giraffe Manor, with its 12 individually styled rooms, spiral staircases, balconies and extensive, manicured green lawns, evokes 1930s Africa. Only 10km from Nairobi's city centre, the manor reclines in a restful location for you to enjoy the other fascinating attractions this lively city has to offer. Explore the Karen Blixen Museum, adopt a baby elephant at nearby David Sheldrick Wildlife Trust or visit the neighbours at the Giraffe Centre next door.

Breakfast at the hotel followed by check out.

Meet A&K representative at the reception for your transfer to Wilson airport for your charter flight to Amboseli departing at 1100/1140hrs.

1140hrs: Upon arrival at the airstrip, meet and greet by lodge representative. Proceed to your lodge for check in and lunch.

Amboseli National Park, at the foot of snow-capped Kilimanjaro, Africa's highest mountain, lies 240 kilometers (145 miles) south-east of Nairobi. Years ago, this place formed the backdrop to the stories of famous novelists, Ernest Hemingway and Robert Ruark. For centuries, it has been the home of the celebrated Maasai, a proud nomadic people, famed for their courage and traditions. More than any other community in Kenya, they have learned to live in harmony with their environment and its resident wildlife.

The park, almost 400 square kilometers (154 square miles), lies within an ecosystem ten times that size which spans the border with Tanzania and is

host to dozens of species including big cats. Kilimanjaro can look like a mirage above the hot plains, so much so that early explorers wondered if they were seeing things and local chiefs sent their servants to the top to gather the silver they imagined they saw when the sun glistened on the ice. The ice, with no value to the chiefs of course, melts and becomes the precious resource upon which the game here relies, feeding rivers and swamps that sustain life during the long dry season. At this time the elephant appear ghostly white because of the pale dust they toss on their skins.

Afternoon game drive in the reserve.

This is the best time to spot Mount Kilimanjaro and capture that iconic image of the elephants in front of the world tallest freestanding mountain. Drive back to the property for a late breakfast and thereafter take advantage of the in house facilities. In the afternoon you have time for a siesta before setting out again in the golden light of sunset on a second game dive

Tawi Lodge is set within 6,000 acres of private conservancy adjacent to Kenya's Amboseli National Park which is at the core of a vast ecosystem that

straddles the border with Tanzania. The lodge is perfectly positioned to enjoy generous views of iconic Kilimanjaro, Africa's tallest, at 19,341 ft (5,963m) and the world's highest, freestanding mountain. Every deck is arranged to observe the mountain's ever-changing face. 12 enormous, elegant rooms, thatched with local makuti, are set with fireplaces, and furnished with four poster beds swathed in snow-white mosquito nets. Water holes in front of the lodge bring in myriad thirsty game, elephant, impala, kudu, and graceful long-necked gerenuk. The trees around the camp are rowdy with birdlife, more than 400 bird species thrive in this wild place. Drink in a sundowner with the game and that view, beneath a beautiful old Tortilis tree.

Set out on a game drive into Samburu's starkly beautiful arid landscape. Today see if you can find the Northern Five (also called the Samburu Special Five) who are the lesser known 'cousins' of the Big Five. The group consists of the Reticulated giraffe with its wonderfully defined markings, the Grevy's zebra whose thin stripes and round ears make it far better looking than its more common cousin, the beisa oryx with its long straight horns, the gerenuk whose long neck makes it look like a cross between an impala and a giraffe and the Somali ostrich with its pink legs and contrasting black and white plumage.

All meals will be served at the Camp.
