

## Victorious Warrior in Homabay

On February 18, we established a group in Homabay for around 60 students, all of whom are orphans. Our mission was to support their spiritual growth and encourage them to pursue a positive path in life. We organized activities and discussions to help them strengthen their faith, find inner resilience, and build a sense of community. Through these efforts, we aimed to empower them to face life's challenges with hope and confidence, fostering their journey towards a brighter future.

Youths from Homabay

In April, we returned to visit the group to see how they were progressing. We were delighted to discover that they were doing exceptionally well and had begun applying the principles and values we had discussed. It was heartening to see that some students had even found enjoyment in engaging with the book by coloring, making the learning process more interactive and meaningful. Their enthusiasm and growth were clear signs that the guidance and support they received were making a positive impact in their lives.

## GRADUATION

On August 6, the students successfully completed their study program, having gained a deep understanding of spiritual truths and the glory of God. To honor their dedication and commitment, each participant who finished the program received a certificate of completion. This recognition not only celebrated their hard work but also marked an important milestone in their spiritual journey, symbolizing the knowledge and growth they achieved throughout their studies.

## TESTIMONIES

### **Liz**

In this course book, "Victorious Warrior", I have learned a lot. I have learned that a warrior is someone who can overcome challenges, and one key quality of a warrior is that they are always mentally, physically, and morally upright. As a youth, I encourage you to always strive to be in a position to overcome your challenges.

### **Elisha Odhiambo**

I have made a lot of spiritual development from "Victorious Warrior." A real warrior understands that there are times you lose and times you win. As a warrior, it is your responsibility to find a way to win the battle. You also need to be truthful. For example, in Brianna's story, she stole her mother's earring, but she realized it was shameful and went back to ask for forgiveness. This shows us that we need to be truthful and never give up in life.
