

San Francisco Human Services Network

The SF Human Services Network (HSN) represents nonprofit members to amplify policy, programs and other solutions to shared challenges faced by our community. Member organizations provide health and human services to San Franciscans. Members and the communities they serve benefit from the collective power of our network.

By joining, nonprofit leaders are able to connect with peers in the sector to collaborate and share resources. Members are able to participate in joint advocacy to amplify issues that align with our missions and values.

Nonprofit organizations are able to join the HSN Network year-round. Membership drives are conducted twice a year, once in July, and again in December. Organizations pay membership dues based on budget size. However, we do not want cost to be a barrier to membership. Please reach out to us if you are interested in joining but cannot meet the recommended dues payment.
