

Hi! My name is Lina, I'm 16 and live in Portugal (hence my fluency in Portuguese). I am half British, half Italian (and was born in France, just to make things more complicated). My interests are quite varied, all the way from cooking, to writing to web development, however, my favorite has to be music (listening, producing, and singing, to be more specific). I hope to be able to make a difference and have a positive impact on the community by tutoring :)
