

Hello everyone my name is Ramon Salado and I use he/him/el pronouns. I will be attending Stanford University as part of the class of 2026 with an interest in political science. My study of academia at Stanford is fueled by a history of people who lack political representation across local, regional, and state levels of government. This emphasis on community involvement transcends my time in higher education and exists as an instrument of my social responsibility to members of my raza. Utilizing education to reconstruct old systems of governance and be an advocate for the individuals who make up my community. Additionally, I enjoy spending my time thrifting, drawing, and also painting!
