

My name is Morgenne Almonte and I am really interested in pursuing medicine and going onto become an orthopedic surgeon. I currently am in 11th grade in a health sciences collegiate academy and my favorite thing to do is to dance bachata and salsa at my dance studio. I'm on a competitive bachata team with Latin Passion Dance Academy where I am able to express my roots and embrace my Latina heritage! I would love nothing more than to help somebody with learning English!
