

LIES COME BACK AROUND

How could you stare into my eyes...and lie...forever
Stare into my eyes....forever

I've had enough of the lies you said
My life was forced to where it lead....yeah
And the trouble you put me through
It makes no sense to keep loving you

You're really alone, I'm being patient
But really all alone, keeping you is all that I know

When your lies come back around X 4

You tried to tell me your feelings
Like I was the only one, next to you
It's the love that I placed in you
Makes me feel like a fool and I can't breath

You're really alone, I'm being patient
But really all alone, keeping you is all that I know

Now your lies come back around
Now your lies are coming back around
Now your lies are coming back around

SADDER THAN STRANGE

No regret or sorrow
Actually it's sadder than strange
I loved you every day but then you walked away
Sadder, Sadder than strange

I guess you have your reasons
But is tomorrow better than today
I'll hate you every day, but else can I say
Sadder, sadder than strange

You stole my heart, away from me
Revenge is sweet and I'll really make you see
A love so true, I saw a clue
As I walk away from the ghost of you

The ghost of you....Aaaah....Aaaaah....Oh yeah

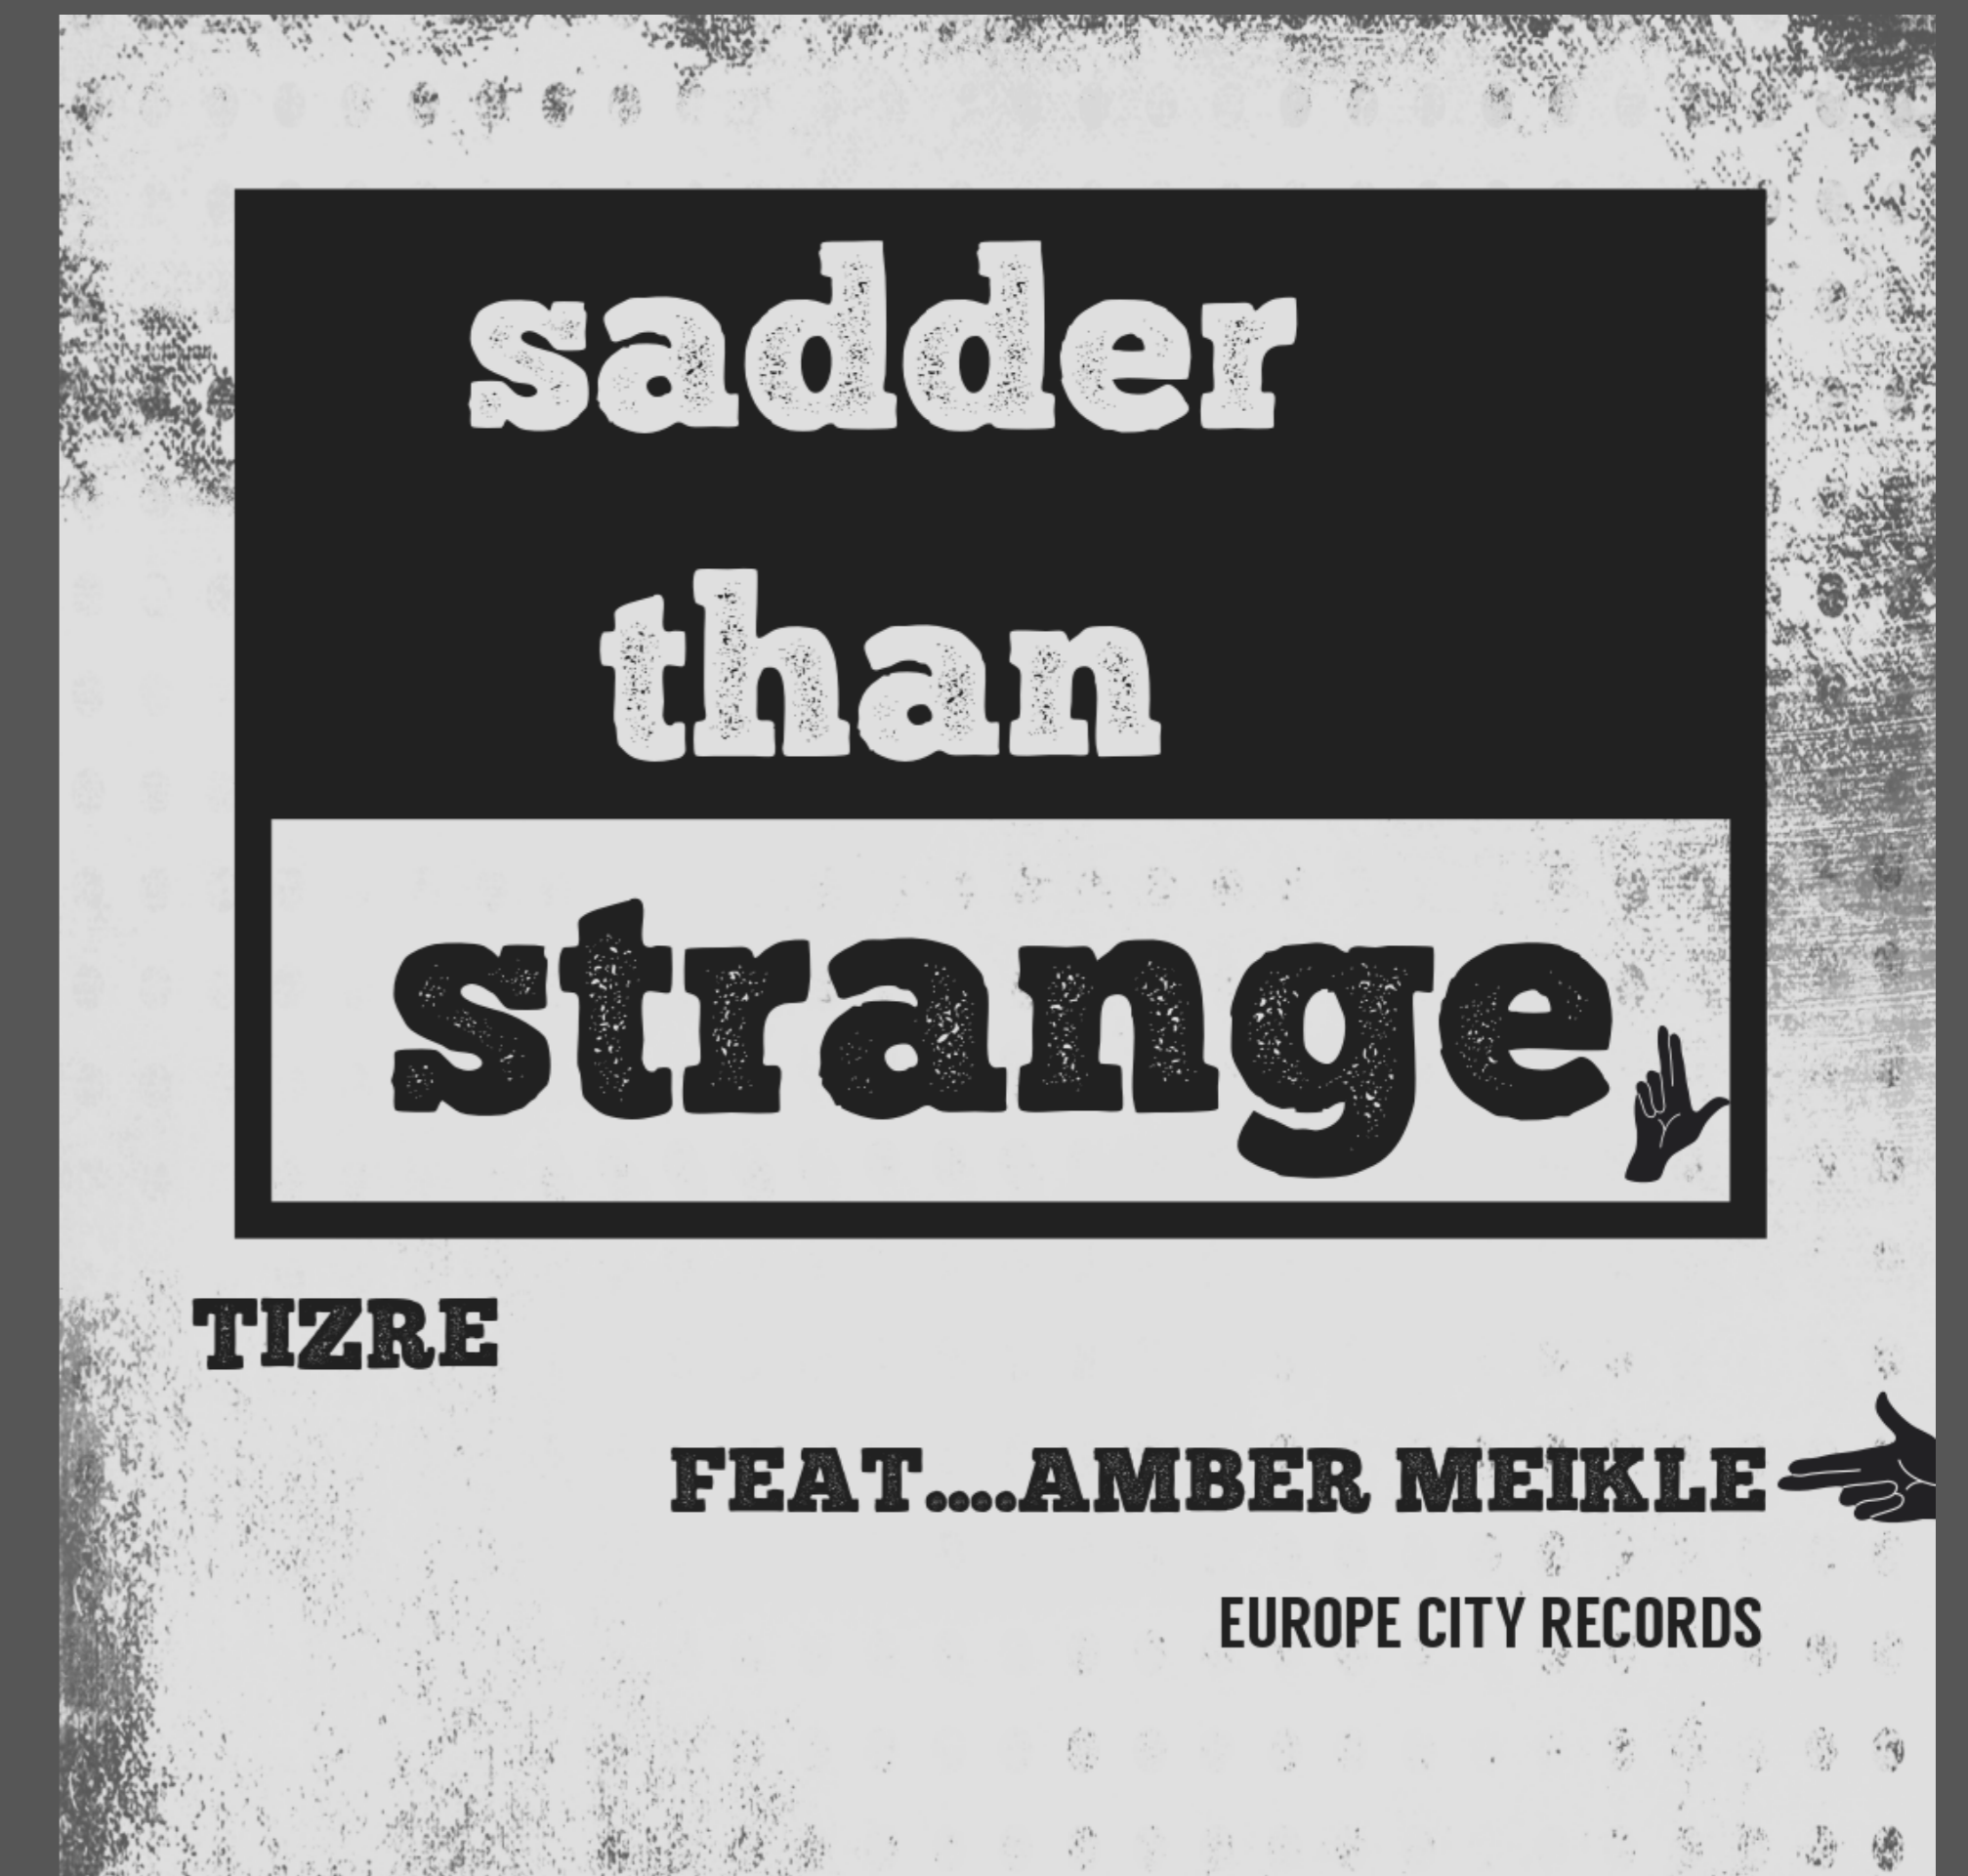

There is no love, there is no sadness
Only strange, only strange...only strange

I'll tell you why I'm deceiving
Your love was hotter than hell
You ran away, left me on that day
Sadder, sadder than strange

Every waking time I think of you
You signed your name next to mine

You stole my heart, away from me
Revenge is sweet and I'll really make you see
A love so true, I saw a clue
As I walk away from the ghost of you

ALL TEARS, ALL HEARTACHE...GOODBYE

Could you tell me that again....baby
Just tell me so I get it clear
Waiting so my brain connects it
Waiting cause it's all I hear

In your arms.....I showed you my emotions
Cause I just had a real...notion.

In my heart the light doesn't shine here
All night, all night, it's heartache, heartbreak and goodbyes
You aint worth nothing in places
And I'd seen so many faces
All night, all night, it's heartache, heartbreak and goodbyes
Yes it's all goodbyes X 2

I knew I should have gave you up
I knew I should have never drunk from your loving cup...No!

I knew I should have gave you up
I knew I should have never drunk from your loving cup...No!

So we are again baby
So when were you gonna tell me
Waiting so my brain connects it
Waiting cause it's all I hear

In your arms.....I showed you my emotions
Cause I just had a real...notion.

So we are again baby
So when were you gonna tell me
Waiting so my brain connects it
Waiting cause it's all I hear

In my heart the light doesn't shine here
All night, all night, it's heartache, heartbreak and goodbyes
You aint worth nothing in places
And I'd seen so many faces
All night, all night, it's heartache, heartbreak and goodbyes
Yes it's all goodbyes X 2

Give me a break, I can play your own game
Give me release

I bet you never knew how it made me feel
I guess you can never be in real love
I bet you never knew how it made me feel

ALTERNATE FATE

I was happy where I was
I was really happy
I'd found the perfect love

But then crying for no reason
Then boy you came to me

I will combine this....and I'm...missing this

You took over my life, my life
And my alternate faith
My faith oh..my faith no, no
You took over my life, my life
And my alternate faith
My faith oh, my faith, no ,no...yeah

I guess I never saw you coming
But you turned me around
I was never one in believing
But look at this love we found

I gave you my love
And you took mine
I never want to see you cry, no way

No more love...no way
No more tears...no way
I took that chance, but I didn't want to see you cry
No way oh, no more love
No way, no...no more tears

I was happy where I was
I was really happy
I'd found the perfect love

But then crying for no reason
Then boy you came to me

I will combine this....and I'm...missing this

You would see if I'm not here
Your lies would all then disappear

BLINK OF AN EYE

SONGS OF LOVE AND THE DESTRUCTION OF LOVE

Answer my love, answer my life, what more can I do
No don't answer that, just answer what more can you do
You got to show me, show me if it's the only
I took you back, and back you came and then you went away

Every day in my head I'm calling, calling for you
And you knew, I swear I was falling, falling for you
Running around this circle
You know you made me truly believe
But all I want right now is calling, calling for you.

I was so bored before, with the stories you told about him
I can't lie, I loved you in a blink of an eye

He, he couldn't let you go X 3
He couldn't let, no he couldn't really, I mean really show his love

I was so bored before, with the stories you told about him
I can't lie, I loved you in a blink of an eye

ALL LYRICS AND COMPOSITIONS, TERRY MOOREHEAD

BUT YOU MISLEAD ME

I gave you, everything
But you mislead me, except the ring
You could have told me, could have told me
But we all drown at sea

I could have waited for you, but you called my bluff
And let's not pretend it really wasn't just love
I've been thinking how could you do this
When all the while you were the one I miss

I'm gonna let you lie as much as you want
I'm gonna tell my heart it wasn't so tough

I've been thinking of you, of you
I've been thinking of you, of you

Oooh Yeah.....Oooh Yeah

Oooh, it's time I let you get away
Oooh, I'll get over you, no matter what they say

Oooh.....Oooh

Lets not pretend, you've not done it before
And you mislead me, and destroyed my soul
You could have told me, could have told me
But we all drown at sea

I could have waited for you, but you called my bluff
And let's not pretend it really wasn't just love
I've been thinking how could you do this
When all the while you were the one I miss

I GOT YOU IN MY MIND

I saw you and my world found a remedy
I saw you and I knew you completed me

I wanna tell you and tell everyone
I wanna share you like a rising sun
Don't be a stranger and let me go....I love you so

I found you and it was simplicity . I sailed the world and yes I found the key

Losing my patience.....And my life has sense

Where were you in the past.....To make my future last

I'm bringing every moment.....To make this feeling pass

Was I just lonely?....In future or in past

Losing my patience.....And my life has sense

Where were you in the past.....To make my future last

I'm bringing every moment.....To make this feeling pass

Was I just lonely?.....In future or in past

I saw you and my world found a remedy....I saw you and I knew you completed me

I wanna tell you and tell everyone
I wanna share you like a rising sun
Don't be a stranger and let me go
I love you so

I'LL BE COMING BACK TO YOU

Did you really let me go, was I the last to know
Your feelings come and go
Why do you love me so
I know you have a different view, you made my dream come true.
Baby I'll just walk away.....But I'll be coming, coming back to you

My heart felt alive last night
I knew that it felt so right
But dreams fade lately, we can't talk about it

I wonder what you said, laying in his bed
Guess I'll never know really
But my mind gets crazy, yeah crazy about yer

I know I'm not the jealous kind
I know I get lost sometimes
I know I get way too high
I just wanna get back the dream we had

I know that it might be tough, I said that I'd had enough
It's just I really loved you, baby I can get it back from you

I know I'm not the jealous kind
I know I get lost sometimes
I know I get way too high
I just wanna get back the dream

Did you take me for fool, and broke the golden rule
Your feelings come and go
Why did I love you so?
I now have a different view, I didn't have a clue

Baby I'll just walk away.....But I'll be coming, coming back to you

Darling why can't we be alive
Do or die..I just wanna survive
Just to survive...

Did you really let me go, was I the last to know
Your feelings come and go
Why do you love me so
I know you have a different view, you made my dream come true.
Baby I'll just walk away.....But I'll be coming, coming back to you

I LOVE THE COLOURS OF YOUR HEART

You are what I'm longing for ...Oh
I feel so high even if I'm down
Because I love you, I'm fine, when you go I frown
I love my life with you

Cause baby you're my one world, one love
Yes one world, one love, one love
Can I say, you know you drive me crazy, when you make smile
What can I say.....Yes one world, one love
I'm not saying lies..I feel crazy

Look at me, you captured my love
Is it for us, is it for love
I love the colours of your heart
I Love them, love them...Yeah!
I love the colours of your heart
I Love them, love them...Yeah!

Do you really think of me..Oh
Am I the one you only see..Oh
Because I love you, I'm fine, when you go I frown
I love my life with you

Look at me, you captured my love
Is it for us, is it for love
I love the colours of your heart
I Love them, love them...Yeah!
I love the colours of your heart
I Love them, love them...Yeah!

Cause baby you're my one world, one love
Yes one world, one love
Can I say, you know you drive me crazy, when you make smile
Can I say, you know you drive me crazy, crazy

What can I say.....Yes one world, one love
I'm not saying lies..I feel crazy
Look at me, you captured my love
Is it for us, is it for love
I love the colours of your heart
I Love them, love them...Yeah!

LOVER THEN ENEMIES

I thought we'd be together
But I am capable to leave you forever
I really thought you loved me...remember?
But it's you whose capable to break us together

I don't wanna say..or want you to stay
But a favour why are you to worry
And I knew, could have told you
I can't stop this playtime, when you're the enemy
And your voice is the one thing killing me that's a fact
And baby that's a fact....we're lovers then enemies

I said I'd love you forever
But I am capable to leave you forever
I said I'd love you forever
But I am capable to leave you forever

I don't give a damn, don't want you to stay
Did you think I really would worry
And I knew, could have told you

I said I'd love you forever
But I am capable to leave you forever

OUR LOVE WAS FOREVER

You and me forever
Seems so surreal
As I heal forever from your nightmare
I did feel alive, yes it's true, so true
Then I realised this is no sacrifice

Our love was forever
Seems so surreal
As I cry forever from emotions
I did feel alone yes it true, so true
Then I changed my heart, it was not paradise

When I run it through, run it through
I see my face in places, looking back at you, back at you
And I can't stop thinking, don't make me love you no more
It's just your delusion here
I wanna swim back to my own shore

You and me forever
Seems so surreal
As I heal forever from your nightmare
I did feel alive, yes it's true, so true
Then I realised this is no sacrifice

When I run it through, run it through
I see my face in places, looking back at you, back at you
And I can't stop thinking, don't make me love you no more
It's just your delusion here
I wanna swim back to my own shore

When I run it through, run it through
I see my face in places, looking back at you, back at you
And I can't stop thinking, don't make me love you no more

It's just your delusion here
I wanna swim back to my own shore

TELL ME NOW

I don't believe in you
That's just my view

You're a liar, so am I
You liked fooling me and so do I
I keep visions open in my eyes
Your love made me want to cry

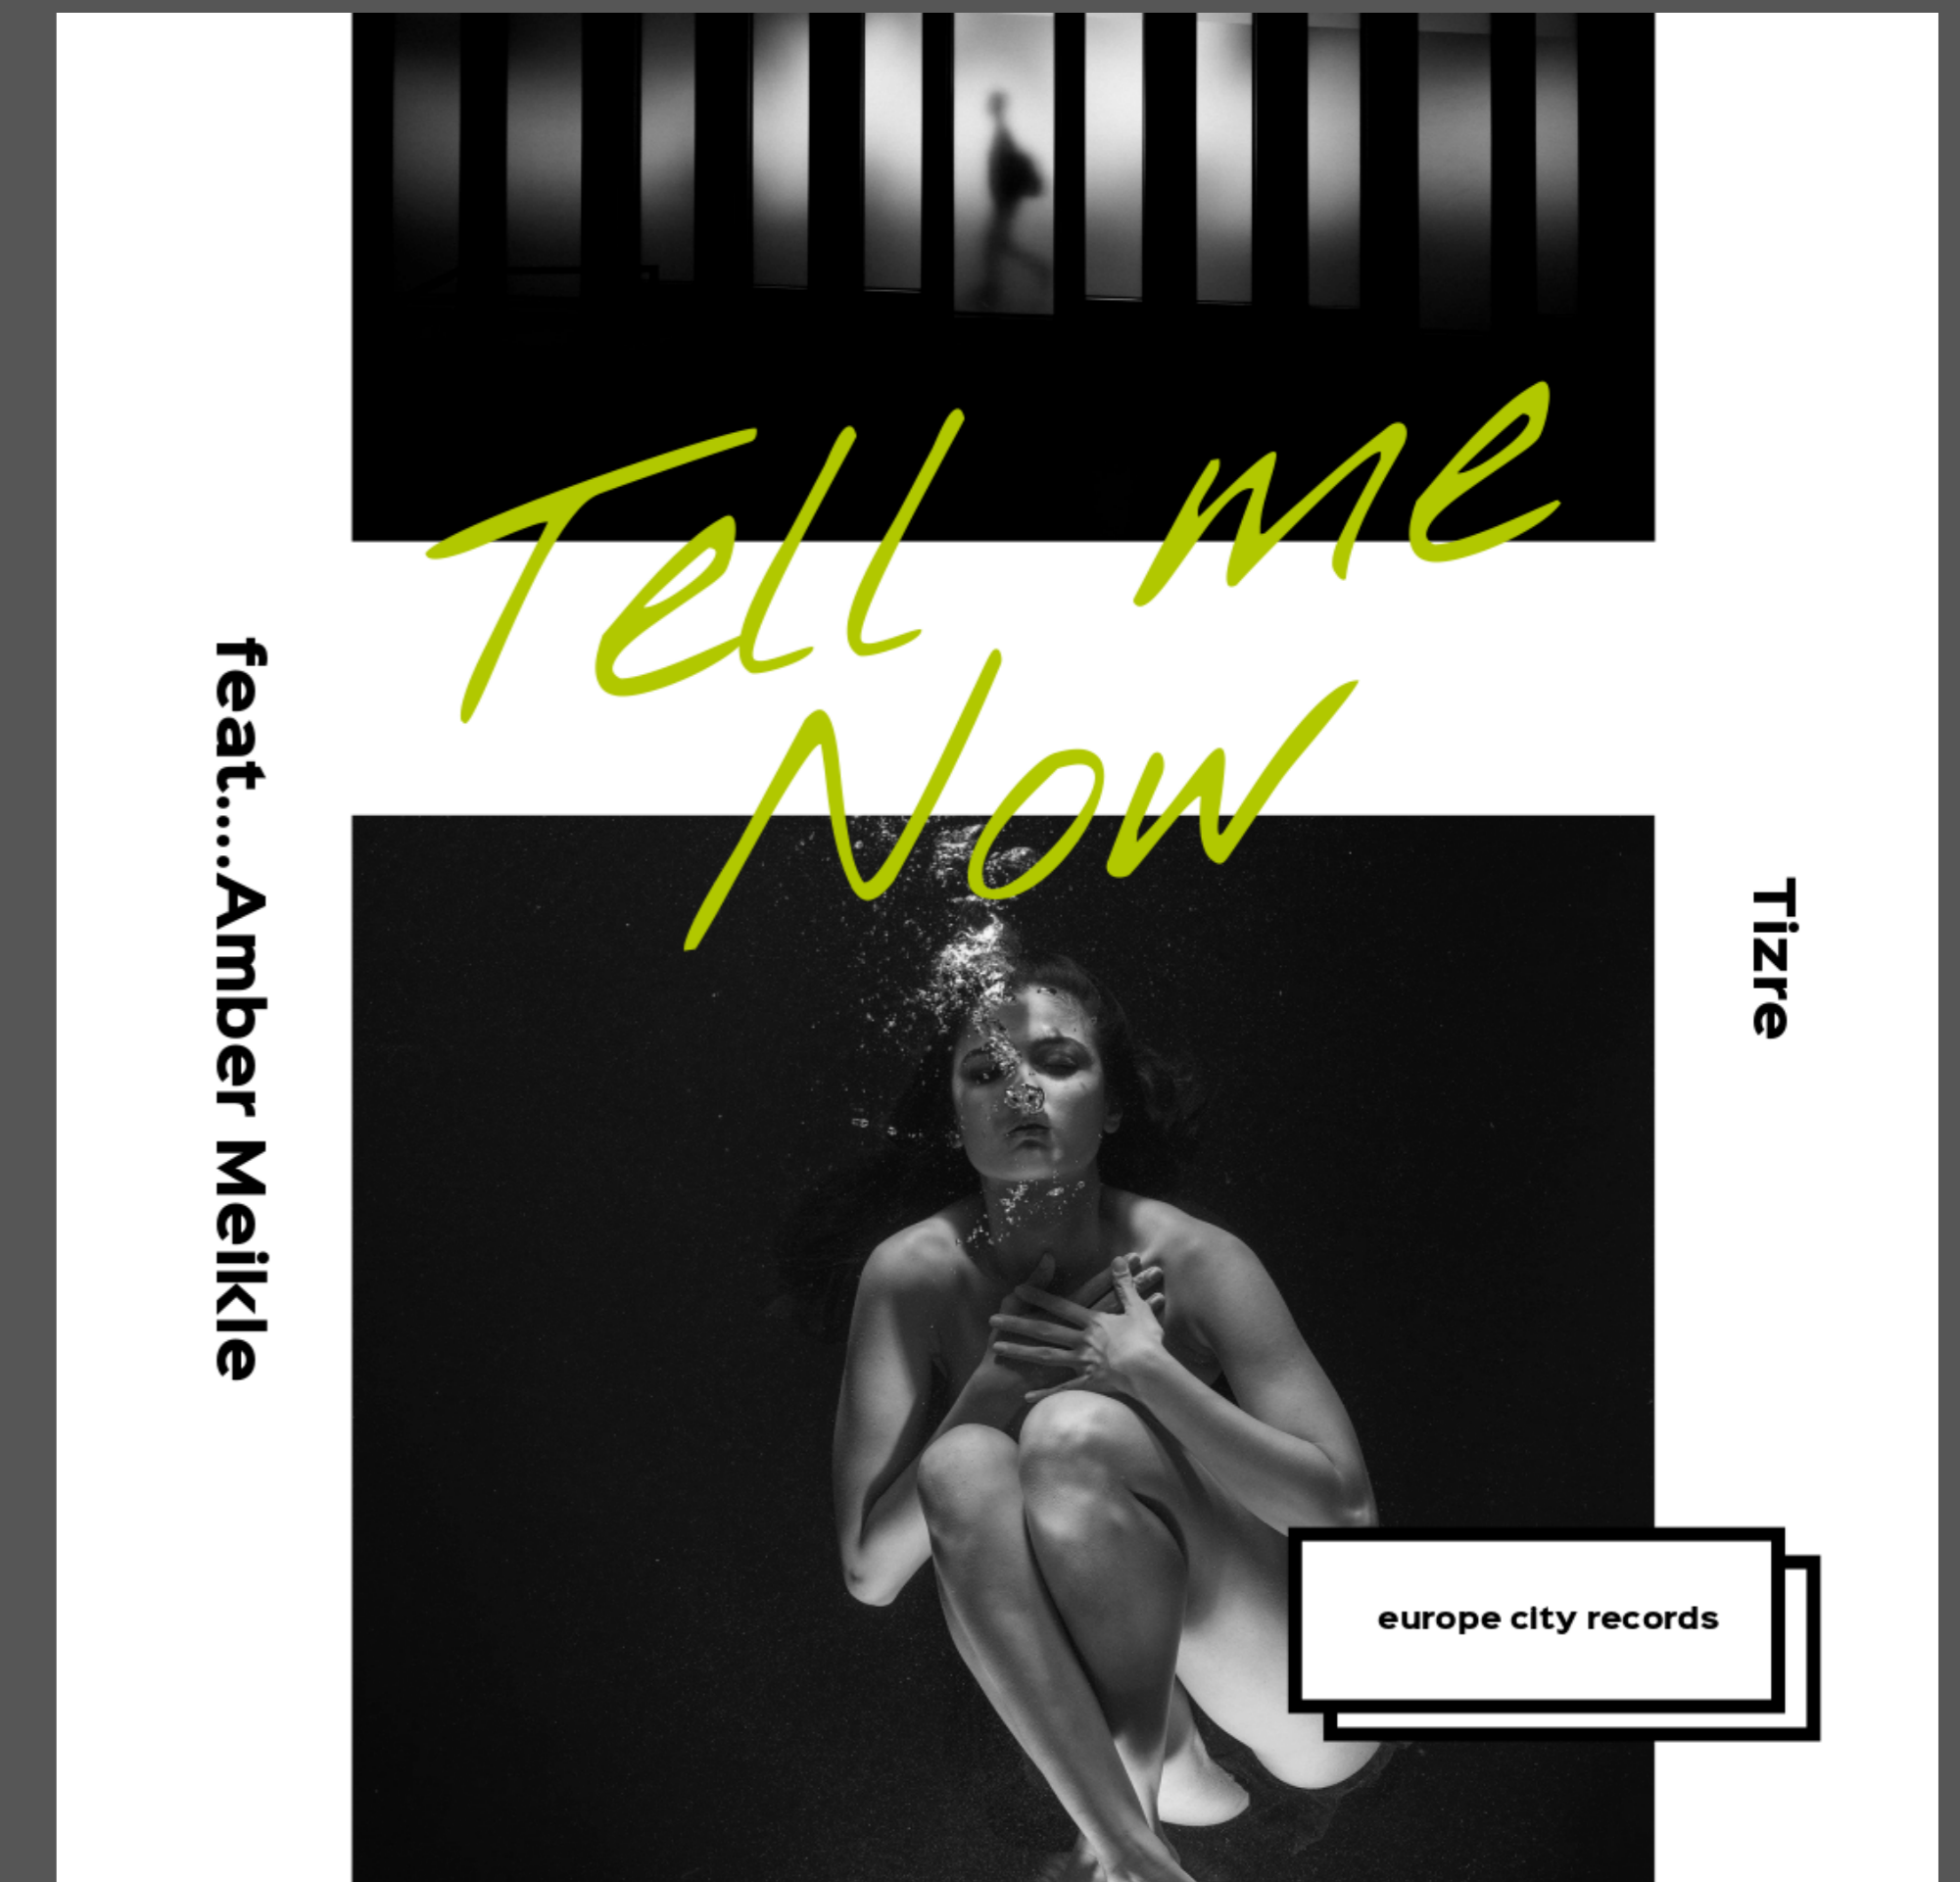

Tell me now, get it over with
I don't want to love without you
My heart is down, and you don't have a clue

Tell me now, get it over with
I don't want to love without you

I don't believe in you
That's how I'm feeling
Your hearts on fire, so was I
You play the deceiver and so do I

I keep visions open in my eyes
Your love made me want to cry

PATHETIC

You know you're pathetic right baby
And your rhetoric is such a pain

Your friends never really see
How destruction was your key

Will you ever set me free?
Yes destruction is your key

I never really had a chance baby
It's pathetic how you change your game

You can post what you like
You need a secure perception of life
But it's all lies

Wake up and see, you won't get to me.

AS ON MY OWN

October in my heart
It's right and it's clear I'm meant to be
There is no reason to fight any meaning
As long as you're here with me

I've got you in my mind and mystery
I've got you in the light and fantasy

I wanna save you like anyone
Maybe I'm a dreamer....as I'm on my own

I'm gonna tell you, like anyone
And all your friends will know
I've become insane, I'm on my own

As I'm on my own
As I'm on my own

I'll tell you one thing
Which troubles me, is it meant to be
There is no reason to fight any meaning
As long as you're here with me

I've got you in my mind and mystery
I've got you in the light and fantasy

I wanna save you like anyone
Maybe I'm a dreamer....as I'm on my own

No I won't forget how you met me that day
You may recall, how you made me feel that day
So I'll just walk on.....just walk on....just walk on

I've got you in my mind and mystery
I've got you in the light and fantasy

HEART CHEATING ALWAYS

Tell me.....Forever
Lonely?.....Never
Tell me,
If you need me
Just love me.....forever

And I need to feel it...Aaah, Aaah
Now do you feel it with my words, Aaah, Aaah

I know when my heart is cheating always, cheating always, cheating always
I know when my love starts cheating always, cheating always, cheating always
I know when my heart is cheating always, cheating always, cheating always

I know I said some things I didn't mean
I know I murdered love and left the scene
So don't be too good, don't be too cruel to me, to me...to me

No I don't need you I just got carried away baby
We can shake down all the rules but really you know
That we're probably better off, I let you go..I know I murdered love...but you know

Tell me
Forever...
Lonely?.....Never

And I need to feel it...Aaah, Aaah
Now do you feel it with my words, Aaah, Aaah

I know when my heart is cheating always, cheating always, cheating always
I know when my love starts cheating always, cheating always, cheating always

I know what you think, what you're doing
Your love was a fake along
It's OK you can run if you want to
I don't give a fuck what you think

For you it's a game, which I'm not gonna play
But you should do anything to need to say
So it's just a game, which I'm not gonna play
So you should do anything you need to say....Baby

HARBOUR

Hey harbour, be around
Hey harbour, safe and sound

Your broken and you're stolen

Hey harbour, look around
Hey harbour, a broken town

She's broken, and your fallen

Can't you see, it sympathy
The less I see, the more I grieve

Hey harbour, be around
Hey harbour, safe and sound

Ships turning and your yearning

You're just shutting out the dark
Making like, no one ever cared
No one cares about your shore
Not even the light shows you a way
Holding on, holding on, holding on.

She's broken, and your fallen

Can't you see, it sympathy
The less I see, the more I grieve

BLINDED

It came to me, I could see A way that you looked at me
Well it's a feeling, kinda of healing
And my eyes came alive
All I want to survive
Is it in my crazy mind
All I want to survive

I will never see again...blinded...oh blinded
My love was surpassed, blinded...oh blinded
I can't see the light, blinded, oh blinded
I feel my way in the dark, blinded..oh blinded...oh blinded

We're strangers on a shore, seeking something more
All troubles passed, this love will last
And the dye has been cast
Like I'm reborn again
And my eyes came alive
All I want to survive

But later I could see, like I did before
I can find a way to my shore

I really feel alive
And I can really survive
Yes I can really survive

It came to me, I could see
A way that you looked at me
Well it's a feeling, kinda of healing
And my eyes came alive
All I want to survive
Is it in my crazy mind
All I want to survive

I will never see again...blinded...oh blinded
My love was surpassed, blinded...oh blinded
I can't see the light, blinded, oh blinded
I feel my way in the dark, blinded..oh blinded...oh blinded
