'Better than you thought'  
Ft. Molly G

When I saw you again  
I knew i wanted you. But I had to hide it  
I had to hide it

Cuz I have grown strong  
Without you around. I just got to fight it  
I don't want to go back there.

**Chorus:**

I'm gonna be better, better than you thought  
Promise absolutely. This just ain't my fault

I'm gonna be better, better than you thought  
Promise absolutely  
This just ain't my fault

But we're still here  
We're always asking. We're like everyone else  
Time was taken away from me  
Now we're waiting for our kind to end

I know it's hard to explain  
Our sea of love taunted you. But I had swim it  
I had to swim it

The tides were strong. I fell underground  
Fell into the dream. I can't get lost again

**Chorus:**

I'm gonna be better, better than you thought  
Promise absolutely  
This just ain't my fault

I'm gonna be better, better than you thought  
Promise absolutely  
This just ain't my fault

But we're still here  
We're always asking. We're like everyone else  
Time was taken away from me  
Now we're waiting for our kind to end

'These are the days'  
Ft. Jessica J & Shaun Sewell

The loving, is raining down  
The loving, is raining down  
I'm ready!

I never expected to feel this way yeah  
You were right, you love me, treat me better

There's got to be something more than....  
The loving you're giving me  
Cuz I'm feeling inside me  
A regret of synergy

There's got to be something more than..  
The loving you're giving me  
Cuz I'm feeling inside....

The loving, is raining down  
The loving, is raining down  
I was ready to give it all away yeah  
I was right, I should have known, really known better

There's got to be something more than....  
The loving you're giving me  
Cuz I'm feeling inside me  
A regret of synergy

There's got to be something more than..  
The loving you're giving me  
Cuz I'm feeling inside....

'Could you be'  
Ft. Chiara Amatruda

Could you be, the stars at night  
Could you be gives the blind their sight  
Could you be which gives me peace of mind  
Because gods knows I need it

I need someone who understands  
Whose patient with me and who cares  
Cuz all these thoughts get me so damn scared  
As I fall, fall, fall, fall.

Could you be, who shines a light  
Could you be makes me high as a kite  
Could you be which gives me peace of mind  
Because gods knows I need it

Could you be, the stars at night  
Could you be gives the blind their sight  
Could you be which gives me peace of mind  
Because gods knows I need it

I need someone who understands  
Whose patient with me and who cares  
Cuz all these thoughts get me so damn scared

Could you be, the one who lets me down  
Could you be turns a smile to a frown  
Could you be which gives me the run around  
Because gods knows I don't need it

'Don't tell me so'  
Ft. Carrie King

Politicians stand  
And we crash land  
Don't tell me so  
Don't tell me so

Celebrities are fake  
Cashing in as they take  
Don't tell me so  
Don't tell me so  
Oh Oh....

Generation Z  
And wokes will have a say. But thoughts inside my brain  
I can't say. If we chose a way  
The knowledge that we share  
They wouldn't even care for you, for you.

**Chorus:**

But I have seen the light. Choosing left or right  
Lets give up this fight. This world's gone crazy, crazy  
Restricted, not free. And one day you will see

But I have seen the light. Choosing left or right  
Lets give up this fight. This world's gone crazy, crazy. Policy of truth  
But we need to see this proof

I have a better plan. But slammed by their hand  
Don't tell me so. Don't tell me so

They Buy then sell agreed. To fulfill a need  
Don't tell me so . Don't tell me so

Generation Z  
And wokes will have a say  
But thoughts inside my brain  
I cant say  
Reality shows are fake  
The consumption that they share  
But they don't even care about you, about you.

'The perfect dream'  
Ft. Amber Meikle

Deep down. I really wanna make it clear  
We.....haven't had the time to lose  
No, cuz we were the greatest thing ever  
Syncopated, lasting forever  
Deep down. We'll meet in a dream for two

Bring on the sleeping  
I wanna Rem dream away  
I wanna dream the perfect dream again  
I feel the sparkle and visionary  
Moving my body in time with yours  
Lets dream the perfect dream again

Believe me baby. We ain't wrong again  
So just hold me  
Think about it....come dream about it  
So just love me  
You wont regret it

Bring on the sleeping  
I wanna Rem dream away  
I wanna dream the perfect dream again  
I feel the sparkle and visionary  
Moving my body in time with yours  
Lets dream the perfect dream again

Deep down. I really wanna make it clear  
We.....haven't had the time to lose  
No, cuz we were the greatest thing ever  
Syncopated, lasting forever  
Deep down  
We'll meet in a dream for two

We'll meet in a dream for two

Bring on the sleeping  
I wanna Rem dream away  
I wanna dream the perfect dream again  
I feel the sparkle and visionary

Your hidden track

Special thanks to Europe City Records/TuneCore Distribution/BMI Music Publishing

Yeah, I know it sounds absurd  
There's no communication  
I'm not sure what you heard  
But it's my reputation

Don't give a damn about your words  
Understand my situation  
Because of all the things I heard  
Our love is interpretation

Feeling like a muppet  
Control what you see  
Stop fooling with me baby  
Just give in to me

Yeah, I know it sounds absurd  
There's no communication  
I'm not sure what you heard  
But it's my reputation

'Broken Glass'  
Ft. Carrie King

You and I  
How did we get so screwed up  
Hidden (elongate hidden) by our past  
Like going back in time  
Now it's all gone

I'm all set, be ready  
I'll follow my heart  
Forgive all romancing  
I've been fooled before  
I know you'll believe me  
And one day you'll see  
I know you'll be ready  
There's desire in the air  
You lit the spark tonight

You and I  
How did we get so screwed up  
Hidden (elongate hidden) by our past  
Like going back in time  
Now it's all gone

I'm all set, be ready, I'll follow my heart  
Forgive all romancing. I've been fooled before  
I know you'll believe me. And one day you'll see  
I know you'll be ready. There's desire in the air  
You lit the spark tonight. That look and the moon  
You'll dance to my tune. Can you hear it now

It's game set and match  
Load up, shoot close  
I'd given up hope  
No more, no more  
It's game set and match

You (elongate you) and I  
How did we get so fucked up  
Hidden (elongate hidden) by our past  
Like going back in time  
Now it's all gone

'Here we go' Ft.  
Amber Meikle

Thinking of a town or a city I can't define  
And reflections of the life that I'm living

Someone said I like simplicity. But baby you've seen the best of me, yeah

Blindness gets me down from time to time  
It only lets the demons in

I'm down this road again, it's insane again  
Yeah I know.....I can't let you go again  
I'm down this road again.....it's insane again  
Yeah I know..... I can't let you go again

And everything that you do...oooh

Keeping a life or a dream I can't define. And reflections of the lie that I'm living

Someone said I like simplicity. But baby you've seen the best of me.

Here we go. You only look after yourself  
Here we go. You couldn't even be bothered to say sorry.

Here we go. You only look after yourself  
Here we go. You couldn't even be bothered to say sorry.

Thinking of a town or a city I can't define. And reflections of the life that I'm living

Someone said I like simplicity. But baby you've seen the best of me

I'm down this road again, it's insane again. Yeah I know.....I can't let you go again  
I'm down this road again.....it's insane again, can't let you go again

You said it for fun, I can't be the one. A hell of a run, now I sit in the sun  
You say that you care, but you're nowhere

Someone said I like simplicity  
But baby you've seen the best of me, yeah, yeah, yeah. Bless yer

Just look around, there's beauty too, in what you do, in what you do  
I'd even leave this town, like I'm supposed to do, and with you, and with you

I love your freedom, too bad we can't leave behind  
There's only one thing, I just can't rewind

Thinking of a town, or a city I can't define  
And reflections of the life that I'm living

'Shine a light'  
Ft. Chiara Amatruda

I saw your light right in front of me  
Only darkness that frightens me  
In all I dream

I saw your light right in front of me  
Only darkness that frightens me  
In all I dream

I've got you in my mind and mystery  
I've got you in the light and fantasy  
I wanna save you like anyone

Understand the power of behaviour  
But leaving you really does me a favour

Losing my mind in the dark, following the light that I see  
I don't even wanna go

I saw your light right in front of me  
Only darkness that frightens me  
In all I dream

I'll tell you one thing  
Which troubles me, is it meant to be  
There is no reason to fight any meaning  
As long as you're here with me

I've got you in my mind and mystery  
I've got you in the light and fantasy

Losing my mind in the dark, following the light that I see  
I don't even wanna go

I just can't believe how you left me that day  
You made me raw, how made me feel that day  
So I'll walk on, just walk on, just walk on.....just walk on

Take me to the border  
Take me to the border  
I was wrong but I'm not a quitter  
Take me to the border. Take me to the border  
I won't quit

You'll see, completely. Hate me, love me  
Take me, hold me. Thrill me

Take me to the border  
Take me to the border  
I was wrong but I'm not a quitter  
Take me to the border. Take me to the border  
I won't quit

Baby, you'll see  
The real me  
Completely  
Take me, hold me. Thrill me

Take me to the border  
Take me to the border  
I was wrong but I'm not a quitter  
Take me to the border  
Take me to the border  
I won't quit

Take me to the border  
Take me to the border  
I was wrong but I'm not a quitter  
Take me to the border  
Take me to the border  
I won't quit

Giving up my own time  
I'm hoping that you'll be mine  
I'm not scared  
I'm not scared  
I'm not scared, if it's complicated  
Just help me make it
