This article addresses the fundamental falsehood which underpins all of the arbitrary and capricious actions of WHO and the US Government. The actions taken were all justified based on modelling estimates of 3.4% case fatality rate for SARS-CoV-2 infection. Having developed global and national response policies based on these grossly inflated numbers, the US Government then created perverse incentives for the medical system to over-report COVID-associated deaths.

CV19 Vax Causes 'Turbo Cancer' - Dr. Ryan Cole By Greg Hunter On October 11, 2023

<https://rumble.com/v3og3mw-cv19-vax-causes-turbo-cancer-dr.-ryan-cole.html>

Dr. Ryan Cole is a Board-Certified pathologist. Dr. Cole is an expert in postmortem examination and has treated more than 500,000 patients. He has a prestigious resume, including a five-year stint at the Mayo Clinic. Dr. Cole has been fighting the CV19 narrative from infection to injection from the very beginning and told people not to get the CV19 vax. For this, Dr. Cole was attacked by the globalist Deep State until he was forced to sell his medical diagnostic business that staffed around 80 employees. Cole has been put out of work for telling the

awful truth about the deadly CV19 vax. More than a year ago, Dr. Cole called the global CV19 vax "Absolute Insanity," and the data today says he was correct. Dr. Cole says the world is now seeing skyrocketing increases in "Turbo Cancers," disabilities, death and infertility. There were nearly 700 million CV19 bioweapon injections in USA alone. Dr. Cole explains, "This CV19 injection was not a vaccine. The media and people,Äôs place of work coerced them into thinking it was a vaccine. This was a gene-based injection. It was violated from the beginning, according to FDA rules. The FDA knows we have to have long-term safety data. We have to have reproduction safety data. We have to have mutation/cancer safety data, and they did not do any of those studies with those injections. Keep in mind, Moderna had never brought a product safely to market. Pfizer never brought an mRNA product safely to market. So, we had an experiment on the global population."

Dr. Cole says one of the very big problems with the CV19 vax is it destroys the immune system and stops your ability to fight cancer. The truth-telling medical community is calling these new aggressive fast-spreading cancers "Turbo Cancer." Dr. Cole explains, "As I travel the world and talk to doctors, they tell me they are seeing cancers in age groups they have never seen before, and it happened after the rollout of the CV19 shots. Ed Dowd and his group went into the UK and looked at disability sets. In 2020, there was about a 1%

increase in cancer. In 2021, there was about a 6% or 7% increase of cancer. In 2022, there was a 35% increase above average in cancer. That data is really concerning. We are seeing young people appear in an emergency room with leukemia, and they are gone within a week. We are seeing people who were cleared of their cancer, and it was in remission 2, 5, 10 and even 20 years - where, after the shots, their cancer aggressively came back."

In closing, Dr. Cole says, "In my medical opinion, the CV19 vax was all risk and no benefit. The CV19 shots did not help a single person. These shots have to be stopped. We are living under a tyranny of lies."

Former Canadian military officer describes 'abuse of power' behind mandatory COVID jabs. In an exclusive interview, Serge Faucher told LifeSiteNews that his career met an abrupt end when Chief of Defense Staff General Wayne Eyre imposed a COVID-19 vaccine mandate on the entire CAF on October 8, 2021.

www.lifesitenews.com/news/exclusive-former-canadian-military-officer-describes-abuse-of-power-behind-mandatory-covid-jabs

... "My greatest disappointment is to see so many supervisors directly abuse their subordinates when it came to the mandates and forget their humanity. We had

folks that were told they deserved to be shot and killed if you don't take the vaccine." ...

The article mentions other enforced medications including one that made him exceedingly itchy and that effect still lasts.

I think we "gave away the farm" when we required children to be vaccinated before allowing them to register in elementary school and forced Jehovah's Witnesses kids to get blood transfusions.

All this medical stuff needs to be re-thunk from first principles after the Deep State goes away.

Comments after the article are interesting as well. One person commented about the Canadian Armed Forces in general that it is *"dysfunctional, stagnant, glacial in its responsiveness, and one that rewards mindless compliance and sycophancy. Groupthink is pervasive and seems to be a pre-requisite for promotion.*

"Backstabbing" is rampant. It tends to repeat the same mistakes."

Here the NIH says:

"The polyomavirus simian virus 40 (SV40) is a known oncogenic DNA virus which induces primary brain and bone cancers, malignant mesothelioma, and lymphomas in laboratory animals.

Therefore, the major types of tumors induced by SV40 in laboratory animals are the same as those human malignancies found to contain SV40 markers. The Institute of Medicine recently concluded that "the biological evidence is of moderate strength that SV40 exposure could lead to cancer in humans under natural conditions."

Kevin McKernan, a genomic scientist, discovered DNA contamination in Pfizer and Moderna Covid-19 vaccines while trying to solve a sequencing problem. He found that the vaccines, which were supposed to contain pure mRNA, also contained DNA.

The presence of DNA in the vaccines raises questions about the quality of the manufacturing process, safety systems, and regulatory oversight. It also brings up concerns about the potential for this DNA to become part of the genome of a human organism and the possible health consequences of this.

There are strict guidelines about DNA contamination levels in mRNA products. The European Medicines Agency (EMA) and FDA stated limits are 330 nanograms of DNA per milligram of RNA. However, McKernan's analysis showed DNA contamination of up to 35 percent in the bivalent injection samples, which is significantly higher than the acceptable limits.

The UK Statistics Regulator has confirmed, in writing, that data published by the Office for National Statistics ("ONS") cannot be used in support of the "safe and effective" narrative.

"Many researchers and news organisations have made claims of vaccine efficacy and safety based on the ONS reports. We therefore now call on all those who have made such claims [especially the BBC] to publicly retract

Almost every corporate media outlet refused to report anything negative about the vaccines & emdash; because they were paid to close their eyes."

<https://emeralddb3.substack.com/p/the-vaccine-money-has-dried-up-at>

"A scientist friend of mine has actually worked with bacteria and viruses, and even worked on developing a vaccine (which was rejected b the FDA). So, he is rather

familiar with viruses. Lemme post his comments on the "COVID-19 vaccine":

This is not a real vaccine. The body needs to see the actual virus to have an immune response. The spike proteins are only the mechanism that the virus has to get inside a cell to infect it.

So this so-called "vaccine" is flooding the body with the shit that damages cells, hence the heart problems, blood clots, etc. No immune response, or rather not an adequate response. You need the actual virus. The body builds antibodies based on the virus. Kinda like a negative photograph. The antibodies bind to the virus and render it inactive. Not the stupid spike proteins.

The spike proteins are damaging cells and the body is probably responding to the damaged cells. When a cell gets damaged, the body will destroy the sick or dying cell. So you get a bunch of spike proteins. The target cells get damaged and the body is cleaning up the mess. I am sure there is some sort of immune response, but not adequate to protect against the actual supposed "COVID virus." The immune system is trying to get rid of the spike proteins along with flushing out the damaged cells. Hence myocarditis, blood clots, etc.

The liver is a filter, so its trying to filter out that spike protein. The mRNA from the spike protein is recombining with liver cell DNA. And the liver cells, when they

replicate will express these spike proteins on their cell walls. So, the body is replicating spike proteins via the liver cells, but not the virus itself. If the virus was there and active, the body would become a virus-replicating machine. A virus uses spike proteins to gain cell access, take over the cell replication mechanism used to read and replicate the cell DNA by inserting its own DNA or RNA into the mix, the cell then cranks out more virus particles. Then the cell collapses and the viruses go on to other cells and repeat. This stupid spike protein is only damaging the cells that they target. There is no actual virus contained in the "vaccine." So cells get damaged, but not turned into a virus factory and the body does not have the virus to make antibodies. So you will still get sick if exposed to "COVID". There are no antibodies to protect them.

The spike proteins are causing damage to the cardio pulmonary system. Then the liver is trying to filter that junk out and it ends up expressing the damn proteins on its cells walls."

Comment on this short video (not mine):

I don't download software updates for my phone on the first day they are offered. I tend to wait months until they are about to offer a newer update.

I try not to buy the first model year of a car. I prefer to wait three years so they can work out the kinks and mistakes. Third year tends to be pretty reliable.

But hell yea, let's rush out and get first generation gene therapy to immunize us against a coronavirus! What could go wrong?

- 1. Well, we've never built a successful coronavirus vaccine so how can we be sure these genetic instructions will work? Okay, now we know it doesn't stop infection, transmission, disease or death as promised. In fact, not at all. Actually, it seems you are more likely to get sick and die if you took the gene therapy. Go get more!!*

- 2. We don't really understand the human immune*

system. Case in point, we know Type 1 Diabetes is an auto-immune disease, but we do not know why some people get it or why it is triggered inside them. No idea. But don't worry! These shots won't cause any problems like that! We studied them for a few weeks in human trials!

3. We don't really know what is in the shots. With a standard flu vaccine, scientists allegedly infected chicken eggs with influenza, bred up a ton of virus particles, filtered out the egg stuff (well, most of it) and then cooked the flu virus to break it down, then inject that soup into your body to teach it to attack flu virus particles. Maybe it's the wrong flu virus. Maybe it is a different virus. Maybe it's got egg protein inside it, or formaldehyde or thimerosal or aluminum. So we basically know what is inside flu shots, or at least we used to. BUT NOW, they can inject mRNA instructions to create any protein they like. ANY PROTEIN. We have no idea what goes into these shots. They say it's just spike protein, but do you trust them? Can you? Why should you trust these proven liars?

So no, I won't be taking these shots and for the foreseeable future I won't be taking any other shots either.

The jab is supposed to go into your (deltoid) muscle ONLY...and NOT IV into your bloodstream (which caused heart failure in lab rats). Hence, Pfizer/Moderna both specify first aspirating (pulling back) the needle after sticking it in to check for blood (in case you hit a blood vessel). Only if it's clear (meaning you hit no vessel)...are you supposed to then inject.

Butttt...the CDC removed that critical step to "decrease muscle soreness."

As a result, there is a small % of people who are getting jabbed in a blood vessel...and thus suffering the results of bloodstream administration (very bad!). Which also explains why most others aren't experiencing similar, severe heart problems.

It can no longer be contained - even the MSM is running with this reveal - U.S. life insurance companies have said that deaths have an unexplainable increase by 40% in 18-49 year olds. They saw 300% increase in cancer patients over the past year. From around 36,000 new cancer patients to over 120,000 in America.

The head nurse of the University Medical Center in Ljubljana, Slovenia, which takes care of receiving the vaccine bottles, resigned today. She went in front of the cameras and took out the vaccine bottles. She showed people the codes on the bottles where each contains 1, 2

or 3 digits in the code, and then explained the meaning of those numbers. Number 1's placebo, saline. Number 2 is mRNA. Number 3 is mRNA and oncogene, a mutated gene that triggers the development of cancer. People who receive it will develop soft tissue cancer within 2 years. She says that she personally witnessed all the politicians and tycoons receiving the Number 1 vial for their vaccine, so they all received a saline solution, a placebo.

@dailymailUS Once again, it verges on criminal that you are ignoring my direct notifications to you about neonatal deaths from the mom's vaccine, and harms from PEG in the moms' breast milk, while you run stories about heartbroken mothers who cannot understand what happened to their healthy babies. You need to respond to me so you can run stories on what the Pfizer Document Research Volunteers have found re harms to babies from MRNA vaccines. You ran the baseless smears against me over a year ago - even though you've had me to write for you for decades - and yet now you won't run an accurate public interest story that can save innocent babies' lives?

GREECE: New sudden death "without cause" of a 22-year-old vaccinated athlete

The unfortunate girl collapsed on the track on the campus of the city where she was training.

According to thrakisports, she is a student of the TEFAA school of DUTH, in the third year, originating from Crete.

The girl was found unconscious in the stadium by people who were in the adjacent swimming pool, including teachers and doctors who happened to be there who also

made her a WRIST. (?)

According to thrakisports in a relevant article, the 22-year-old had gone for training at the track and field of the University Campus of Komotini, where she collapsed.

The unfortunate girl was found unconscious by people who were in the swimming pool next to the training ground, with the teachers and doctors who were there trying to bring her back but to no avail.

Unfortunately, when she was transported to Sismanogleio Hospital, her death was confirmed.

German study: The number of those suffering from serious complications after taking the COVID vaccine is 40 times higher than previously known. Charité in Berlin is carrying out a study on the side effects of receiving corona vaccinations. Professor Harald Matthes is leading the research and is calling for more contact points for those affected.

Includes around 40,000 participants and asks those to consider (1) that some side effects last for months, if not longer, (2) doctors should "Discuss it openly without being considered anti-vaccination", (3) victims must be taken seriously, (4) special outpatient clinics for vaccination victims required, and (5) Hemodialysis as therapy -- "The presence of too many autoantibodies in the blood plasma of those affected is often the cause of the problem," explains Prof. Matthes.

CDC data and the CEO of a \$100 billion insurance company said that the death rate in 2021 for those aged 18-64 has risen an astonishing 40% over pre-pandemic levels and the majority of deaths are not being classified as due to Covid-19.

"We are seeing, right now, the highest death rates we have seen in the history of this business – not just at OneAmerica," said Scott Davison, head of Indianapolis-based insurance company OneAmerica that's been in operation since 1877 and has approximately 2,400 employees.

"And what we saw just in third quarter, we're seeing it continue into fourth quarter, is that death rates are up 40% over what they were pre-pandemic," Davison said during an online news conference last week.

"Just to give you an idea of how bad that is, a three-sigma or a one-in-200-year catastrophe would be 10% increase over pre-pandemic."

From researcher Bill:

7 Patented Poisons in CV19 Injections

Biotech analyst and former Pfizer employee, Karen Kingston has applied her advanced skillsets to read the COVAX drug patents and federal contracts and she's back with Greg Hunter to explain some of her latest findings.

She says, "We are being lied to at such a level, it is difficult for people to comprehend. The American people and global citizens were told the injections were vaccines. In fact, when you look at the patents, they call them 'bioweapons'. They call them 'toxins', they call them 'agents of chemical biowarfare'...

"Specifically, there is a 2017 patent related to what they are calling a 'vaccine.' The patent is entitled 'Vaccine Nanotechnology'...It's owned by the NIH, and when you read this nanotechnology patent, under Section 9, it clearly states: 'In some embodiments, the small molecule is a toxin, a toxin from a chemical weapon, an agent of biowarfare.'

Vaccine Myocarditis: Mystery Solved?

<https://swprs.org/vaccine-myocarditis-mystery-solved>

From researcher Bill: *Prof Luc Montagnier, who won the 2008 Nobel Prize for medicine over his discovery of the human immunodeficiency virus (HIV). He reiterated the claim that all COVID-19 vaccines were toxic and that they would invariably cause a variety of medical catastrophes down the line. Three weeks later, Montagnier succumbed to a heart attack at the ripe old age of 89. But not before the following quote attributed to him went viral:*

"Those who received the third dose should go to the laboratory and take an AIDS test. The result may surprise you. Then sue your government."

<https://www.activistpost.com/2022/03/the-depopulation-blueprint-viruses-vaccines-vaids-and-ww3.html>

If Montagnier and his fellow dissident experts are right on this issue, a vaccine-induced Great Die-Off may soon be on the cards. We are no longer hypothesizing about the deaths of 1-2 billion vaccinated people by 2030 but rather a mass culling approaching 95% of mankind.

The famous "two weeks to flatten the curve" mantra has predictably morphed into two years of snowballing

totalitarianism. And it all began with an alleged virus that was supposed to herald a new Black Death.

Comment: I haven't personally seen any side effects in friends after the first month. (One guy needed an immediate coronary bypass. One developed a palsy that closed his eyelid. Another complains of "fuzzy thinking".) I'm obviously watching Iliana but all she's experiencing is the usual colds and tummy upsets.

"You won't believe the audacity of these devils.

Now they're saying, if you die from the vaccine, it's your own fault."

<https://t.me/projectcamelotKerry/7920>

Pfizer Documents arrived with Bombshell data, claiming that inhalation and skin contact with vaccinated people may transfer what's in the vaccine to the unvaccinated population. Participants in the vaccine studies were the superspreaders of something that no one knows what it is but causes side events in the people who have never had the vaccine when exposed to vaccinated people.

<https://thetruedefender.com/bomb-stay-away-from-the-vaccinated>

Comment: this looks to me like instructions given to the people who volunteered to participate in the initial trials. I see no evidence that "shedding" actually occurred - just

that it was a possibility that Pfizer wanted to monitor.

Just watched last night Matthew LaCroix talk about Lost Civilizations. Whew! I knew most all of it already, but he puts it together so well and comprehensibly in an hour interview (his books are on book4you.org). Acute disseminated encephalomyelitis following vaccination against SARS-CoV-2: A case report

Highlights

- Acute disseminated encephalomyelitis is a monophasic acute non-vasculitic inflammatory demyelinating disorder of the central nervous system.
- Pathogenesis is suspected to be related to an autoimmune response to myelin triggered by infection or immunisation via molecular mimicry.
- Once the SARS-CoV-2 infection was declared a global

pandemic, vaccines became one the most important strategies to reduce mortality.

- There is current uncertainty about the safety and efficacy of vaccines in all populations of interest.

Abstract

Acute disseminated encephalomyelitis (ADEM) is an inflammatory demyelinating disease of the central nervous system that is usually considered a monophasic disease. Post-vaccination ADEM has been associated with several vaccines, however, there is scarce information related to SARS-CoV-2 vaccines. We present the case of a 26-year-old female who suffered from ADEM four weeks after Gam-COVID-Vac administration.

*"Conclusion: Clinicians should be aware of the potential, though rare, occurrence of AIBDs as a possible adverse event after the SARS-CoV-2 vaccination. **However,***
