

ATTN: The Members and Chairman of... **Insert Name of Hospital or Larger Corporation of Hospitals;**

My name is Insert name and I am writing to inform you of any potential upcoming violation you may engage in regarding any reimplementation of illegal “mask mandates” within your hospitals and places of employment.

In the upcoming months, hospitals may reintroduce illegal “mask mandates.” You need to make sure that your hospitals are not these hospitals. The legal definition of the term mandate clearly states “voluntary participation,” and an illegal act constitutes whether you force onto others or profit monetarily from such a mandate. Again, the legal term “mandate” does not mean “mandatory.” It means “voluntary participation.” If you profit from any mask implementation, the implementation is also null and void, and illegal by definition. The same is true if you “require” the wearing of such masks or face-shields (when not performing surgery), regardless of the style or brand. Any implementation of a “mask mandate” or face-shield for patients and employees would also be violating your own *Human Rights Policy and Codes of Conduct Policy*, clearly stated on your own website.

Furthermore, you must be unaware of what is happening at the moment and what has been happening over the past three years since the mask and “COVID Vaccine” rollout. Those who wore the mask and those who took the shots, are sick and “dying suddenly.” The only one’s surviving are the ones who never wore the mask and never took the shots. Frankly speaking, you’ve been lied to.

Nurses all over the world have gone on strike, walked off of the job, and have quit as a result of them wanting to remain safe and free to breathe, while also avoiding the “COVID-19 Vaccine,” only to be asked back to their positions by their former employer due to their staff members being sick from the mask-wearing and the shot-taking, while also being short-staffed. This has happened in every country, and countless hospitals are being sued as a result of the illegal mandates they have imposed on their patients and their employees. This mass non-compliance will happen again among your more knowledgeable staff, and as a result, you will be short staffed, if not completely unable to operate as a hospital if you ever implement illegal “mask mandates” and “COVID-19 Vaccine” requirements ever again in the future. Currently, Kaiser Permanente in five states and Washington D.C. is threatening to strike, which would impact healthcare workers, including nurses, lab technicians, orderlies, therapists and pharmacists. They are planning to walk off the job for three days in October. This would be the biggest health care strike in U.S. history and will involve 40 percent of Kaiser’s workforce. This is happening because the employees know what is going on. They know that the masks are useless and that the shots are killing those who take it. They see it every day.

The detrimental health of wearing a mask, which contains numerous poisons (i.e., graphene oxide, among many others; as referenced in the peer-reviewed/published articles below), as well as the immediate health effects of oxygen deprivation at the cellular level being the number one case of cancer, prove this beyond a doubt. Much has been learned over the last century and

certainly over the last three years. To deny these facts and ignore them would be another violation of your *Human Rights Policy and Codes of Conduct Policy*, not to mention; State law. If what was occurring inside of a mask regarding the high levels of Co2, in combination with the inhalation of graphene oxide that is a component of surgical masks, occurred within any room or building you were in, it would violate any OSHA standard and regulation. Such a room or building would be evacuated immediately and no one would be allowed to reenter until a permanent change was made.

Mass non-compliance and legal action would render your hospitals unable to perform your duties. Those duties are being called upon now and certainly in the future, yet again in larger numbers, as those who took the “COVID-19 Vaccines,” and did wear or are still wearing the masks are experiencing permanently compromised immune systems and the plethora of illness and syndromes that accompany such an irreversible condition, such as permanently damaged DNA that causes the former. Given that your *Human Rights Policy and Codes of Conduct Policy* clearly state that ‘a safe and open working environment are your top priorities,’ ignoring the below references would be an illegal action that you would be taking, as you would be putting your staff and patients directly in the path of harm, yet again.

Your review of the below documentation regarding the harms of mask wearing and the “COVID-19 Vaccine” is of the utmost importance, and your course correction is your legal responsibility. Endless employees within your hospitals and places of employment are aware of the above and below documentation, as such documentation is widely available on the internet through medical websites and peer-reviewed medical journals. Employees are prepared to act accordingly in order to keep themselves safe and injury free, as well as protect their patients from harm.

We will be monitoring your actions within your hospitals with regard to the legal steps we will most certainly take in the future if you do not cease all reimplementation of “mask mandates” or “COVID-19 Vaccine” distribution.

We hope that we will not have to move forward.

History does not repeat itself, but the behaviors of unknowledgeable people certainly does. Occam’s Razor applies in this case; ‘the true answer lies in the explanation that requires the least number of assumptions.’

You are now in legal possession of proof to the facts stated above.

Sincerely,

Insert your name... or that of another to represent you in any way: It doesn’t need to be a doctor or nurse. I can be an anonymous person or a made-up name/person.
